INDEX.

VOL. CVI.

Illustrations.

Names.

A

ABBOTT'S Coal Hoist on the Tyne, 176, 177
Ackroyd-Buckley Steam Superheater, Longbotham, 98
Adams' Controllers for Continuous and Alternating Motors, 400, 401
Ajax Spring Hammer, 259
"Alexander" Boiler Cleaner, 333
Allen's Oil Engine and Dynamo, 38
Three-throw Air Pump, 38
Turbine Pump, 38
American Concrete Locomotive Coaling Station, 472
Anderton Boat Lift, Reconstruction, 82, 92 (*Two-page Supplement, July 24th*, 1908)
Andrews and Cameron's Sea-water Evaporators and Feed Heaters, 150
Aron Taximeter, 456
Arun, Swing Bridge at Littlehampton, 174, 175
Asquith's 6ft. Radial and Vertical Drilling Machines, 404 (*Supplement, October 16th*, 1908)
Atlas Locomotive Works, Peckett, 122
Austria, Clyde-built Ships for, 202
Austrian State Railways Goods Locomotive, 259
Austro-American Twin-screw Steamer Martha Washington, 202
Aveling and Porter's Light Tractor, 613
Steam Tractor, 17
Avonmouth, Royal Edward Dock at, 7, 12, 23, 40, 66, 70, 95 (*Two-page Supplement, July 3rd*, 1908)
Avranches Railway Viaduct, 450, 451

B

BAILEY'S "Miloscope" Speed Indicator, 214
Barclay's Cut-off Gear, 98
Barnsley Main Collieries Ropeway, 194, 199
Barrow-in-Furness, Walney Island Bridge, 88, 89, 110, 111, 118
Bellerophon, H.M. First-class Battleship, 563
Bennis' Chain Grate Stokers and Coal handling Plant at Coventry, 306
Berlin, Experimental Tank, 237, 318
Railway Accident, 412
Tramway Improvements, 87
Bethlehem Steel Works, 529, 590, 594, 635, 639
Bevis-Gibson's Meter, 505, 615
Beyer, Peacock's Locomotive Wheel Lathe, 600 (Note, 627)
Binnie's Plate Bending Rolls at Harland and Wolff's Southampton Works, 62
Blackwell Island Bridge, New York, 252
Bleichert Suspension Railway System for Ironworks, 642
Boby's Blow-down System for Boilers, 174
Bombay, Dredger for, Simons, 200
Port and Harbour Improvements, 157
Brackett's Three-throw Dry Vacuum Pumps, 413
Bray's Grid Resistance and Switch Gear, 401, 402
Motor Starter and Panels, Rotor Resistance Frame, Field Rheostats, 468
Brayshaw's Tempering Furnace, 403, 404
Brazilian Battleship Minas Geraes, 270, 291, 298; Armour Plate, 260, 261
Bredsdorf "Stranding" Buoy. 278
Bremerhaven Tank, 183, 318
Bristol, Works Visited by Institution of Mechanical Engineers, 113, 123, 124
British Columbia, Kootenay Power and Light Scheme, 481, 490
British Thompson-Houston 1000 K.W. Alternator with Curtis Steam Turbine, 426 (*Supplement, October 23rd*, 1908)
Brooke H., Racing Motor Boat, 329
Brough, Bennett H., Portrait, 381
Brown's Dry Insulating Machine, 454
Brown, Boveri's System for Electric-driven Spinning Frames, 430
Bruce, Sir George Barclay, Portrait, 215
Brukner's Concrete Railway Sleepers, 411
Buckton's Planing Machines at Harland and Wolff's Southampton Works, 62
Bucyrus Steam Shovel in the Culebra Cutting, Panama, 59
Bullivant's Ropes, Ropeway Plant, and Rope Cutters at Mining Exhibition, 136
Ropeway at Barnsley Main Collieries, 194, 199
Burmah Oil Pumping Station, 361
Burnside Safety Boring Apparatus, 122
Burrell's Traction Engine at Harrogate, 538
Burton Griffiths' Drill, Rice High speed Sensitive, 427
Milling Machine, "Milwaukee," 427 (*Supplement, October 23rd*, 1908)

C

"CALEDONIAN" Cut-off Gear, Barclay, 98
Railway Brake Van, 74
Railway Signalling at Glasgow, 266
Callao Floating Dock, 220, 224
Cameron's Punching and Shearing Machine at Harland and Wolff's Southampton Works, 641
Cammell, Laird's Large Sand Pump Dredger, 439
Campbell's 25 B.H.P. Suction Gas Engine, 36, 61
Canada, Concrete and Steel Workshop in, 368, 378
Canadian Pacific Railway, Reconstruction of Portion, 665, 672
Chance's Lighthouse Apparatus, 356
Chantiers de Province: Model Half Boiler Equipment for 18,000-Ton Battleship, 161
Chorlton-Whitehead Governor for Steam Pump Valve, 678
Chouanard's Lathe, 265
Churchill's Bevel-gear, Planing, and Surface-grinding Machines, 466
Clayton and Shuttleworth's Chaff Cutter, 612
Clyde Trust Works at Yorkhill, Glasgow, 238
at Renfrew, 261
Comet, Motor Launch for the Tyne, 276
Congdon's Lift Gear, 431
Cornwall Canal Embankment, U.S.A., Washout, 90
Coventry Electricity Works Chain Grate Stokers, 306
Coal Handling Plant, 306
Cowper Coles' Paper on Copper Tubes, Sheets, and Wire: Direct Production, 136
Crewe Works, 617, 620 (*Special Supplement, December 11th*, 1908)
Crypto Buffing Machine, 456
Cunliffe's Turning and Boring Mill; Vertical Drilling Machine, 466, 467
Curtis Steam Turbo-Alternator, 1000 K.W., British Thomson-Houston Company, 426 (*Supplement, October 23rd*, 1908)
Cussons' Model Steam Engine Cylinder, 136
Cutler-Hammer Lifting Magnet for Steel Works, 229
Cwm Cerwyn Tunnel, Reconstruction, 585

D

DAIMLER "Knight" Motor Car Engine, 534
Danish State Railways Locomotive, 293, 294, 295
Davey, Paxman's Compound Lentz Engine, 44
Davidson's Heating and Ventilating Plant for Machine Shops, 414
Dean, Smith and Grace, Flat Turret Lathe, 442
Denny-Johnson Recording Box, 614
Des Vignes' Three-throw Hydraulic Pump, 75
Dickinson's "Ideal" Marine Reversing Gear, 200, (Correction), 232
Dolphin Two-cycle Motor Car Engine, Two-stroke Engine Company, 536, 561
Dorman, Long's Electrical Equipment, Middlesbrough, 320, 359, 371
Dudbridge Ironworks' 90 B.H.P. Gas Engine, 360
Dundee, Stobsmuir Reservoir at, 604

E

ECKSTEIN'S Controllers and Switches, 453
Porcelain Handle Fuses, Switches, Laminated Brush, 432
Egmore Station, South Indian Railway, 370, (Note), 413, (*Supplement October 9th*, 1908)
Electric and Ordnance Accessories Company's Exhibits at Manchester, 399
Electromotors' 5 to 10 H.P. Colliery Haulage Gear, 402, 403, 430
3 K.W. Steam Dynamo, 402
Eschweiler Gas Engine and Power Station, 679 (*Two-page Supplement, December 25th*, 1908)
Evershed's "Megger" Insulation Testing Machine, 467

F

FERRANTI'S Switchboards, High and Low-tension, 398
Field, Edward, Portrait. 562
Fleuss Vacuum Pump, 177
Flottmann's Compressed Air Drill Valve, 122
Fownes' Stern Frame, 652
France, Concrete Bridges in, 450, 451
Western Railway of: New Pacific Type Locomotive, 55 (*Two-page Supplement, July 17th*, 1908)
Franco-British Exhibition, 10, 38, 57, 84, 108, 151, 161, 188, 213, 264 302, 313, 356, 465 (*Two-page Supplement, July 3rd*, 1908)
Fraser and Chalmers' Belt Conveyor for Coal, 573
French-built Ship Models at Franco-British Exhibition, 213
French Torpedo-boat Destroyers, 191
Freund's Tramcar Slipper Brake, 361

G

GARDNER'S 75 Horse-power Oil Launch Engine, 276
Geipel's Testing Rheostats, 630
General Electric Company's Induction Motor Generator, 398 (*Supplement, October 16th*, 1908)
German Experimental Tanks, 183, 237, 285, 318, 343, 383 (*Two-page Supplement, October 2nd*, 1908)
Naval Dockship Vulcan, 460, 462
Shipbuilding Yard at Stettin, 316, 324
Gladiator, H.M. Cruiser, in Portsmouth Harbour, 411
Glasgow Central Station Signalling, 266
Harbour Extensions, 238
Iron and Steel Company's Manhole Door, 84
Glenfield's Water Main Drilling Tackle, Hatch-box, and Water-pipe Scraping Apparatus, 85
Great Eastern Railway, Norwich (Thorpe) Station, 451, 452
Great Northern Railway, Royal Train, 560, 568
Great Western Railway Works at Swindon, 158, 165, 168
Green's Narrow-gauge Locomotive, 539

H

HADFIELD'S Projectile Cap Before and After Impact, 571
Hall, J. P., 20 Horse-power Motor, with Magnetic Brake, 400
Hamilton Coke-handling Machine. 469
Hardy Simplex Hammer Drill, 135
Harland and Wolff's Works at Southampton, 61 (*Two-page Supplement July 17th*, 1908)
Harrogate Gasworks Light Railway, 538, 542
Hathorn's Rock Drill Chuck, 122
Head, Wrightson's Coal Shipping Machinery for Japan. 646, 650, 651
Heatly-Gresham's Lighting Sets, 428
Henschel's Boiler-cleaning Apparatus, 333
Herbert's Horizontal Milling Machine, 404 (*Supplement, October 16th*, 1908)
Milling Machine for Curved Links, 278
Hetherington's Railway Wheel Lathe, 550
Higginbottom's Cranes at Avonmouth, 95
Hodges' Steam Turbine Blowers, 173
Hoffmann's Ball Bearings, 349, 399
Hopkinson's, Professor, Meter, 506, 614
Hopkinson's Steam Stop-valve, 350
Howard Pneumatic Company's Pipe Flange Drilling Machine, 387
Humpage's Paper on Spur Gearing, 138
Gear Hobbing Machine, 139
Hungarian State Railways Locomotive, 564
Hurry Riches and Reynolds' Paper on Forced Lubrication for Axle-boxes, 113

I

"IDEAL" Marine Reversing Gear, Dickinson and Burne, 200 (Correction, 232)
Indian State Railways, Standard Underframes and Bogies, 546
Irthlingborough, Cement Works at, 30
Island Barn Reservoir, East Molesey, 460
Italian State Railways Locomotive, Demoulin, 209

J

JACQUOT'S Hand-shaping Machine, 189
Jenkins' Railway Switch, 57
Jinga, Reclamation Dredger for Bombay, Simons, 200

K

KAISERIN Auguste Victoria, Hamburg-American Liner, 316
Kempton Park Station Pumping Engines, 424, 434
Kennicott Water Softener, 628
Kent's Venturi Meter in Boiler-feed Pipe, 432
Works at Luton, 18
Kesnors' Automatic Lift Controller, 431
Key Engineering Company's Spring Conduit Wiring System, Conduit and Lamp Fitting, 457
Kramos' Electro Lifting Magnets, 64
Kootenay Power and Light Scheme, British Columbia, 481, 490
Krizik Electrical Steering Gear, 259

L

LACKAWANNA Steel Works, 2000 Horse-power Gas Blowing Engines, 394, 406
Lancashire Dynamo Company's Fly-wheel Equaliser, 458
Lancaster and Tonge's Measuring Apparatus for Condensation Water, 578
Lanchester on Laws of Flight, 288, 303, 329
Lanz Locomobile, 598
Laurentic, White Star Liner, 291, 292, 298
Leeds Forge Company's Underframes for Indian Railways, 546 (*Correction*, 578)
Lentz Horizontal Compound Drop-valve Steam Engine, Davey, Paxman and Co., 44
Leutz Valve Gear, 598
Leviathan, Large Sand Pump Dredger, Cammell, Laird and Co., 439
Lilleshall, Pumping Engines at Kempton Park, 424, 434
Little's Jacket Water-cooling Apparatus, 455, 456
Littlehampton, Swing Bridge over Arun, 174, 175
Livesey, Sir George, Portrait, 381
London and North-Western Railway and Crewe Works, 617, 620, 621 (*Special Supplement, December 11th*, 1908)
Longbotham's Hauling Engine, 97
Steam Superheater, 98
Lusitania, Speed Trials and Performance, 46
Luton, Kent's Works at, 18
Lysaght's Works at Netham, 123, 124

M

McKENDRICK'S Radial Drilling Machine, 470
Madras, Egmore Railway Station, 370, (Note) 413, (*Supplement, October 9th*, 1908)
Manchester Electrical Exhibition, 328, 348, 374, 398, 426, 453, 465, 466 (Correction, 474), (*Supplement, October 9th*, 1908; *Supplement, October 16th*, 1908; *Supplement, October 23rd*, 1908)
Manville Machine for Rolling Screw Threads, 252
Marcus Conveyor, Head, Wrightson, 97
Marples' Single-phase Motor, Slip Ring Induction Motor, and Tramway Controller, 459
Martha Washington, Twin-screw Steamer, Russell and Co., 202
Maschinenfabrik Augsburg-Nürnberg Gas Engine, 679 (*Two-page Supplement, December 25th*, 1908)
Massey's Drop Stamp and 3-Cwt. Pneumatic Hammer, 376
Mather and Platt's Steam Turbo Pump, 677
Megantic, White Star Liner, 654
"Megger" Insulation Testing Machine, Evershed, 467
Merryweather's Petrol Motor Turntable Fire Escape, 21
Merz-Price System of Protective Gear for High-tension Circuits, Reyrolle and Co., 426, 427
Metropolitan Amalgamated Company's Rolling Stock for Indian Railways, 546 (Correction, 578)
Middlesbrough, Dorman, Long's Electrical Rolling Mill at, 320, 359, 371
Oval Blast Furnace at, Samuelson's, 225
"Miloscope" Speed Indicator, Bailey, 214
"Milwaukee" Milling Machine, Burton, Griffiths, 427 (*Supplement, October 23rd*, 1908)
Minas Geraes, Brazilian Battleship, 270, 291, 298; Armour Plate for, 260, 261
Mining Exhibition at Olympia, 68, 97, 121, 135
Mirrlees-Diesel 150 Horse-power Oil Engine, 348
Mirrlees Watson's Sugar-milling Plant for Java, 495
Mond Gas Plant, 151
Monterey, Mexico, Waterworks and Sewerage, 486, 510, 514, 533 (*Two-page Supplement, November 6th*, 1908)
Montreal Pay-as-you-enter Car, 305
Waterworks Improvements, 610
Morgan Crucible Company's Pneumatic Brush Gear for Dynamos, 374
W., and Company's Derrick Quarry Crane, 275
Thomas, Rotary Cement Kiln, 22
Musgrave's 700 K.W. Zoelly Turbo-alternator, 376 (*Supplement, October 9th*, 1908)

N

NALDER'S Slip-ring Induction and Single-phase Motors; Tramway Controllers, 459
Nasmyth's Centenary, Portrait and Workshop Methods, 290, 314
Nasmyth, Wilson's Works, 290, 314
National Gas Engine Company's Engine, 522
Netham Works, Lysaght, 123, 124
Newark Engineering Works, Bath, Stothert and Pitt, 142, 146
New Century Company's Air and Steam Locomotive Superheater, 494
Conveyor Company's Grain-conveying Plant, 96

197087

Newcastle, Royal Agricultural Society's Show at, 16, 36, 60
New York, Bridge, Blackwell Island, 252
Niclausse Boiler, 161, 189
North-East Anglia, Railway Facilities, 451
North-Eastern Railway Six-coupled Tank Locomotive, 352, 359
North Staffordshire Railway Locomotive, 186, 187
Norwich Stations, 452

O

OLIVER'S "Oriflamme" Arc Lamps, 429
Olympia Motor Car Exhibition, 534, 561
Ottawa-Trold Collision, 74

P

PANAMA Canal, Progress at, 4, 27, 58, 134 (*Two-page Supplement, August 7th*, 1908)
Parenty's Steam Meter, 265
Paris-Orleans Railway Pacific Type Locomotive, 471
Parsons' Marine Steam Turbines, Models at Franco-British Exhibition, 10 (*Two-page Supplement, July 3rd*, 1908)
Party's Boiler, 213
Patent Lightning Crusher, 136
Paterson's Oil Eliminating Plant, 250 (Correction, 278)
Pay-as-you-enter Car at Montreal, 305
Pearns' Three-throw Ram Pumps, Vertical and Horizontal, 349
Peckett's Locomotive Works, 122
Peebles-La Cour Motor Converter, 398 (*Supplement, October 16th*, 1908)
Petter's Piston Ring, 332
Pickles' Mortising and Boring Machine, 357
Pochin's Internal Gears, 87
Potts' Bevel and Spur-wheel Shaping Machine, 138, 139
Power Plant Company's Double-helical, Double-reduction, and 15 Horse-power Endless Haulage Gears, 427, 428
Prague Jubilee Exhibition, 1908, 210, 259
Premier Portland Cement Works at Irthlingborough, 30
Price's Engine and Dynamo Lighting Set, 403
Pulsometer's Flexus Vacuum Pump, 177

Q

QUEENBOROUGH Bridge—*see* Blackwell Island

R

RANSOME'S Steam Tractor, 36
Redman's Centre High-speed Lathe, 467
Reinecker's Gear-hobbing Machine, 139
Renfrew, Clyde Trust Works at, 261
Reyrolle's Electric Protective Gear, Merz-Price System, 426, 427
Isolating Switch, 457
Robey's Horizontal Steam Winding Engine, with Drop Valve Reversing and Overwinding Gear, 60
Portable Engine, with Jet Condenser, 60
Robinson's Vertical Mortising Machine, Moulding Machine, and Sawbench, 374
Roots' Blower Plant, Thwaites, 387
Roumanian Railways, Petroleum Fuel on, 667
Royal Agricultural Society's Show at Newcastle, 16, 36, 60
Royal Edward Dock at Avonmouth, 7, 12, 33, 40, 66, 70, 95 (*Two-page Supplement, July 3rd*, 1908)
Rurik, Russian Armoured Cruiser, 347 (*Supplement, October 2nd*, 1908)

S

S.P. PISTON Ring, Petter, 332
Sabretache, French Torpedo-boat Destroyer, 191
Sagar's Horizontal Log Band Sawing Machine, 228
St. Mark, New Campanile, 286
St. Pancras Ironwork Company's Steam Motor Wagon, 386
St. Vincent, H.M. Battleship, 273, 291, 298
Sargent Tandem Gas Engine, 394
Saucon—*see* Bethlehem Works
Saxon and Norman Cement Works, Meal Mixer, and Stores, 518
Scarborough, New Marine Drive at, 148
Schäffer and Budenberg's Exhibits at Manchester, 348, 455
Pressure Indicator, 455
Integrating Pressure Gauge, 348
Scott and Mountain's Motor-driven Mine Haulage Gear, 498
Scott-Robinson's Carburetter, 561
Selby Waterworks, 216
Selig, Sonnenthal's Machine Tools at the Franco-British Exhibition, 302
"Selson" Radial Drilling Machine, 303
Shanks' Lathes at Harland and Wolff's Southampton Works, 62
Shaw's Parallel Slide Valve, 403
Sheffield-Simplex Six-cylinder Chassis, Gear and Back Axle, 535
Sheffield-Twinbarrow Self-discharging Wagons, 539, 542
Shepherd, Hill and Spink's Wheel-cutting Machine, 138
Siam, Railway Motor Car for, 601
Siegener Company's Compound Drop-valve Winding Engine, 624, 625
Siemens' Hydraulic Steering Gear, 604
Simon's, H., Moisture Tester, 37
Universal Grinder, 36
Simons' Reclamation Dredger for Bombay, 200
Sisson's Two-crank Compound Steam Dynamo, 402
Smith, C. A. M., on a Method of Detecting the Bending of Columns, 158
Sphingometer, 158
Smithfield Club Show, 612
Snow Pump Works, 4000 Horse-power Gas Engine Compressor, 394, 395, 406
South-Eastern and Chatham Four-coupled Express Engine, 243 (*Two-page Supplement, September 4th*, 1908)
Indian Railway, Egmore Station, Madras, 370 (*Supplement, October 9th*, 1908), (Note), 413
Southampton, Harland and Wolff's Works, 61 (*Two-page Supplement, July 17th*, 1908)
Stead, J. E., Workshop Microscope, 345
Steinthal's Contact Plug, 400
Stirk's 6in. Slotting Machine, 427 (*Supplement, October 23rd*, 1908)
Stobsmuir Reservoir at Dundee, 604
Storey's Testing Machine, 548
Stothert and Pitt's Capstans and Cranes at Avonmouth, 95
Jib Crane, 350
Newark and Victoria Works, Bath, 142, 146
Struthers' and Wells' 800 H.P. Vertical Gas Engine, 394
Sunbeam Tungsten and Carbon Lamps, 468
Swan, Hunter's Floating Dock for Callao, 220, 224
Swansea, King's Dock, 341 (*Supplement, October 2nd*, 1908)
Swiftsure Syndicate's Butter Separator, 16
Swindon, Great Western Railway Works, 158, 165, 168
Syme's Turnip Thinner, 17

T

TANGYES' Connecting-rod Drilling Machine, 224
Tees-side Bridge Works' Coaling Staith on the Tyne, 176, 177
Thompson's Traction Engine at Harrogate, 538
Thornycroft's Railway Motor Car, 601
Thwaites' Roots Blower Plant, 387
Tilghman's Electrically-driven Air Compressors, 166, 431
Tullis' Drilling Machines, 523
Turner's Grist Mill, 36
Two-stroke Engine Company's Car, 536, 561

U

UEBIGAU, Dresden, Experimental Tank and Dynamometer, 285, 318, 343 (*Two-page Supplement, October 2nd*, 1908)
Union Electric Company's Continuous-current Motor, Frequency Meter, High-tension Switches, 456, 457
United States, Gas Engine Development in, 394, 406
Universal Plough, 211
Uruguay Post Office Tender, Yarrow, 678

V

VENICE, New Campanile of St. Mark, 286
Venturi Meter in Boiler Feed Pipe, Kent, 432
Vickers, Sons and Maxim's Guns at Franco-British Exhibition, 108
"Visor" Overwinding Gear, 98, 466
Vulcan Shipyard, Stettin, 316, 324
Vulkan, German Naval Dockship, 460, 462, (Letter) 521, 589

W

WALLACE Manure Distributor, 16, 37
Wallwork's Gear Hobbing Machine, 404 (*Supplement, October 16th*, 1908)
Walney Island Bridge and Opening Span, 88, 89, 110, 111, 118
Ward's Four-spindle Automatic Machine and Automatic Bar Chuck, 428, 429
"Warner" Autometer, 399
Warren and Tregoning Rock Drill Chuck, Hathorn, 122
Watt's Pumping Engines at Selby, 216, 218
Weir's Petroleum Pumping Engine, 361
Wellman-Seaver's Brake for Motor-driven Machinery, 459
Western Railway of France, Pacific Type Locomotive, 55 (*Two-page Supplement, July 17th*, 1908)
Westinghouse Armature with Radial Commutator, Automatic Transformer and Cut-out, Circuit Breaker, Motor Control and Motor Switch Panels, 454, 455
Gas Engine, 151
Motors at Manchester Exhibition, 375
Rotary Converter, Manchester Exhibition, 398 (*Supplement, October 16th*, 1908)
Whitby Harbour Improvement Works, 240, 246
Whitworth's Wheel-cutting Machines, 138
Wigan Coal and Iron Company's Coal-transporting Plant, 642
Wilkinson's Duplex Drilling, Boring and Tapping Machine, 630
Wood's, Robert, Sight-feed Lubricator, 404
Wood's, J., "Visor" Overwinding Gear, 98, 466

Y

YORKHILL, Glasgow, Clyde Trust Works at, 228

Z

ZOELLY Turbine for Pump, 677
Turbo-alternator, Musgrave, 376 (*Supplement, October 9th*, 1908)

Subjects.

A

AGRICULTURAL Implements at Prague, 210
Air Compressors, Electrically Driven, Tilghman's Patent Sand Blast Co., 1, 166, 431
Armour Plate for the Minas Geraes, 260, 261

B

BEARINGS, Ball, Hoffmann, 349, 399
Bending of Columns, Method of Detecting, C. A. M. Smith, 158
Blower Plant, Roots, 387
Boat Lift at Anderton, Reconstruction, 82, 92 (*Two-page Supplement, July 24th*, 1908)
Boiler Equipment for an 18,000-Ton Battleship, Model (Chantiers et Ateliers de Provence), 161
Laurent Party, 213
Niclausse, 161, 189
Shops at Nasymth, Wilson's Works, 314
Tube-cleaning Apparatus, Henschel, 333
Boilers, Blow-down System for, Boby, 174
Boring Apparatus, Burnside Safety, 122
Machines—*see* Machine Tools
Brake, Slipper, for Tramcars, Freund, 361
Bridge at Blackwell Island, New York, 252
Swing, over Arun, Littlehampton, 174, 175
Walney Island and Opening Span, 88, 89, 110, 111, 118
Buffing Machine, Crypto Electrical Company, 456
Buoy, Bredsdorf "Stranding," 278
Butter Separator, Swiftsure Syndicate, 16

C

CAISSONS at Royal Edward Dock, Avonmouth—*see* Dock
Campanile of St. Mark at Venice, 286
Canal, Panama, Progress at, 4, 27, 58, 134 (*Two-page Supplement, August 7th*, 1908)
Cap of Projectile before and after Impact, Hadfield, 571
Capstans at Avonmouth, 95
Carburetter, Scott-Robinson's, 561
Cement Kiln, Rotary, T. M. Morgan, 22
Meal Mixer and Stores at Cambridge, 518
Works at Irthlingborough, 30
Chaff-cutter, Clayton and Shuttleworth, 612
Coal, Belt Conveyor for Shipping, 573
and Coke-handling Plant in Bristol, 113
Handling Plant and Chain Grate Stokers at Coventry, 306
Shipping Machinery for Japan, 646, 650, 651
Transporting Plant at Wigan, 642
Coaling Staith and Hoist on the Tyne, 176, 177
Coke-handling Machine, 469

Clock-driving Mechanism for Equatorial Telescopes, Sir H. Grubb, 289
Deviation of Actual Gases from the Ideal State, Callendar, 274
Experiments on Rotating Discs, M. F. Fitzgerald and J. Brown, 289
Laws of Flight, F. W. Lanchester, 288, 303, 329
Meeting in Dublin, 273, 287
Peat, Utilisation of, in Making Gas or Charcoal, Capt. Riall Sankey, 287
Platinum Thermometry, 275
Presidential Address, Dugald Clerk, 253, 279
Producer Gas, J. E. Dowson, 288
Production of Ammonia from Atmospheric Nitrogen by Means of Peat, H. C. Woltereck, 288
Railless Traction, F. Douglas Fox, 289
Report of Committee on Gaseous Explosions, 271, 273 (*see* Presidential Address, by Dugald Clerk); Appendix to Report, Callendar, 274
Strength of Solid Round-ended Columns, W. E. Lilly, 289
Study of Breakages, W. Rosenhain, 288
Suction Gas Producers, P. W. Robson, 288
Turbines, Steam, Recent Advances in, G. Stoney, 273

Association of Engineers-in-Charge:
Smoke, J. Swinburne, 422

Association of Engineers, Manchester:
Constantine Medal Award, 470
High-speed Tool Steel, Professor Carpenter, 588
Presidential Address, G. Hughes, 470
Reciprocating Engine in Marine Practice, D. Gibson, 688
Visit to Harland and Wolff's Works at Belfast, 116

Association of Engineers and Shipbuilders:
Wear and Tear of Machinery, W. R. Austin, 644

Association of Water Engineers:
Capetown Waterworks, Wynne-Roberts, 16
Conference at Birmingham, 16
Dinner and Visits, 16
Presidential Address, H. E. Stilgoe, 16
Reservoirs, Impounding, Design and Construction of, Watts, 16
Wells and Bore-holes for Town Water Supply, Ashton Hill, 16

Institute, The Iron and Steel:
Basic Open-hearth Process, Chemical Control of, R. V. Wheeler and A. Harrison, 396
Blast Furnaces from 1844-1908, Bell Brothers, Greville Jones, 346
By-laws, Proposed New, 372
Carbon Steels, Constitution of, Prof. E. D. Campbell, 397

Institute, The Iron and Steel (*continued*):
Cleveland District Iron and Steel Industries, W. Hawdon, 345
Freezing Point of Iron, Prof. Carpenter, 397
Fuel Consumption, Scientific Control of, Prof. H. E. Armstrong, 395
Gas Producer Practice, Experiments, Prof. W. A. Bone and R. V. Wheeler, 395
Influence of Silicon on the Physical and Chemical Properties of Iron, A. Jouve, 397
Iron Ores, Mechanical Cleaning of, T. C. Hutchinson, 345
Iron Sheets and Tubes, Finished, Production of, in one Operation, S. O. Cowper-Coles, 372
Meeting at Middlesbrough, 345, 371, 395
Metal Mixer, Future Development of the, A. E. Pratt, 372
Microscope, Note on a Workshop, J. E. Stead, 345
Pig Iron Shown at the Franco-British Exhibition, Analyses of, Bauerman, 346
Power Supply and its Effect on the Industries of the North-East Coast, C. H. Merz, 346, 629; Mr. T. Westgarth's Addendum, 397
Programme of Autumn Meeting at Middlesbrough, 227
Rail Steel, Test for Ascertaining the Relative Wearing Properties of, E. H. Saniter, 346
Rolling Mills, Experience with Electrically-driven, C. Koettgen and C. A. Ablett, 371
Visits, 346, 373, 397

Institute of Marine Engineers:
Marine Propulsion, Generation and Transmission of Power for, Durtnall, 85, 488
Presidential Address, Mr. J. Denny on Turbines and Propellers, 379, 408

Institute of Metals:
Aluminium and Some of its Uses, J. T. W. Tchevarri, 531
Copper Alloys, Certain, Mechanism of Annealing in, G. D. Burgough and G. F. Hudson, 531
Copper and Copper Alloys, Some Points of Interest, J. T. Milton, 531
Inter-metallic Compounds, Dr. Desch, 531; Rosenhain, 531
Meeting, First General, 531
New Institution, 516
Phosphor Bronze, Notes on, A. Philip, 531
Programme and Progress, 362
Tubes, Plant used in Manufacture of, W. H. A. Robertson, 531
Visits, 531

Institute, West of Scotland Iron and Steel:
Presidential Address, P. N. Cunningham, 460

Institution of Civil Engineers:
Presidential Address, J. C. Inglis, Brunel's Report, Gauge Conversion, 495

Institution of Electrical Engineers:
Some Comparisons of the Electrical Industry in this Country and Abroad, W. M. Mordey, 661

Institution of Electrical Engineers, Manchester Section:
Electrical Design in Relation to Capital Cost, Miles Walker, 523

Institution of Engineers and Shipbuilders in Scotland:
Opening of New Buildings, 618, 638
Presidential Address, Ward, 638
Shipbuilding, Interrelation of Theory and Practice, O'Neill, 100
Standardisation and its Relation to Trade, Sir J. Wolfe Barry, 638

Institution of Mechanical Engineers:
Bending of Columns, Method of Detecting, C. A. M. Smith, 158
Coal and Coke-handling Plant at Bristol, W. Stagg, 113
Copper Tubes, Sheets, and Wire, Direct Production, Cowper-Coles, 136
Dinner, 116
Evolution and Methods of Manufacture of Spur Gearing, Humpage, 138
Forced Lubrication for Axle-boxes, Hurry Riches and Reynolds, 114
Hadfield's Steel Cap of Shot before and after Impact, 571
Impact Testing on Notched Bars, Different Methods, Mr. F. W. Harbord, 571, 602
Repairs, Renewals, Deterioration, and Depreciation of Workshop Plant and Machinery, J. E. Darbishire, 438, 443, 492
Resistance of Materials to Impact, Dr. Stanton and Mr. L. Bairstow, 571, 575
Sphingometer, C. A. M. Smith, 158
Summer Meeting at Bristol, 113, 123, 136, 142, 146, 158, 164, 168
Type-casting and Composing Machinery, L. A. Legros, 675
Visits, Various Works at Bristol, 113, 123, 159; Stothert and Pitt's Works, Bath, 142, 146; Great Western Railway Works, Swindon, 158, 164, 168
Water Filtration and Purification for Public Supply, J. Don, 438

Graduates' Association:
Cane Sugar Factories, Cyril Dawson, 203, 229

Institution of Mining Engineers:
Coal Dust and its Treatment with Calcium Chloride, H. Hall, 241
Colliery Rescue Apparatus, Practical Use of, G. B. Walker, 241
Meeting at Edinburgh, 241
Oil Shale at Pumpherston, Working of, W. Caldwell, 241, 278
Visits, 278
Wemyss Coalfield, J. Gemmell, 241, 278

Institution of Naval Architects:
Lusitania, Speed Trials and Service Performance, Bell, 46

Institution of Naval Architects, German:
Gyroscope as Direction-giver on the Earth and Applicability to Ships, Dr. Anschütz-Kaempe, 611
Lifeboats in Modern Vessels, Placing Technical and Other Considerations, Axel Welin, 635
Meeting, 587, 611
Resistance to Flat Plates and Vessels' Hulls in Water and the Genesis of Waves, Prof. Dr. Ahlborn, 612
Transporting Plant for Building Ships, Michenfelder, 635
Turbines, Marine, G. Bauer, 587
Wage Tariff Agreements in the Shipbuilding Trade, Hochstetter, 635

Institution, North-East Coast of Engineers and Shipbuilders:
Labour Economics and the Engineer, Presidential Address, Summers Hunter, 524
Report of Educational Committee, 679
Torsion Meters in Marine Work, J. Hamilton Gibson, 505

Society of Engineers:
Proposed Amalgamation, 50

Society, Royal:
Conversazione, 14
Divers' Dress, Siebe, Gorman and Co., 14
Egyptian Survey Collections, 15
Mining Apparatus, Life Saving, Siebe, Gorman, 14
Winchester Cathedral Relics, 15

AUSTIN, W. R., on Wear and Tear of Machinery.

B

BAILEY'S Compressors, Gauges, Testers, and Valves, at Franco-British Exhibition, 213
Baker, Professor Ira, on Voids, Shrinkage, and Weight of Crushed Stone, 215
Ball and Socket Joints, 520
Barnes, J. S., on Tubbing for Modern Collieries, 422
Barry, Sir J. Wolfe, on Standardisation, 638
Bauerman, Prof. H., on Analyses of British Pig Iron at the Franco-British Exhibition, 346
Bearings, Ball, Hoffmann, 349, 399
D. W. F. Journal and Thrust Ball, Ludwig Loewe, 466
Bell, Thomas, on Speed Trials of the Lusitania, 46
Belts, Transmission, Domange, 162
Bending of Columns, Method of Detecting, C. A. M. Smith, 158
Bending Machines—*see* Machine Tools
Bessemer Converter, Dry Air in the, 120
Blast Furnaces—*see* Furnaces
Blow-down System, Boby, 174
Blower Plant, Large Roots', Thwaites, 387
Blowers, Steam Turbine, Hodges', 173
Board of Trade Reports—*see* Labour and Boilers
Boat Lift, Anderton, Reconstruction, 82, 92 (*Two-page Supplement, July 24th*, 1908)

Boilers:
Blow-down System for Boilers, Boby, 174
Boiler and Engine Fittings, National Boiler Company, 466
Equipment for 18,000-Ton Battleship, Model, "Lagrafel" Type, Chantiers de Provence, 161
Fittings, Galloway's, 375
Hopkinson's Safety, 350
Furnace, The "Eclipse," 562
Laurence Party, 213
"Leinhaes" Water-tube, with "Durr" Link Fire-bars, 260
Niclausse, 161, 189
Plug, Fusible, Vulcan Company, 375
Settings, Adjustable Cover Company, 84
Tube Cleaning Apparatus, Henschel, 333
Boilers at the Franco-British Exhibition, 161, 189
Doors, Steel Manhole, Rolled Steel Forge Company, 84
Economisers, Clay Cross Company, 264
Engine and Boiler Breakdowns, 272
Explosions, Board of Trade Report, 491; (Letter), 521
Two, 43
Gauge Glasses and Reflectors, Grange, 189
Testers, Vulcan Boiler Company, 375
Stokers—*see* Stokers
Water Purification Oil Eliminating Plant, Paterson Engineering Company, 251

BOMBAY, Port and Harbour Improvements at, 157
Bone, Prof. H. A. and R. V. Wheeler, on Experiments in Gas-producer Practice, 395
Boring Apparatus, Burnside Safety, 122
Machines—*see* Machine Tools
Brakes—*see* Railways and Tramcars
Brass—*see* Metals
Breakages, Study of, W. Rosenhain, 288
Breathing Equipment for Salvage Purposes, Mandet, 162

Bridges:
Avranches Railway Viaduct, 450
Blackwell's Island (Queensborough) Cantilever, at New York, 252, 595, 601
Concrete Bridges in France, 450
Coutances, Manche Railway, 450
Girder System of the Queensborough Bridge, 601
Manhattan Suspension at New York, Spinning the Cables for, 444

Bridges (*continued*):
Noisiel Footbridge, 450
Quebec, Disaster, 221
Queensborough—*see* Blackwell's Island
Swing, over the Arun, Littlehampton, 174, 175
Sydney Harbour, 487
Walney Island and Opening Span, 88, 89, 110, 111, 118
BRITISH Columbia, West Kootenay Hydro-electric Works, 481, 490
Electro-technical Commission, Miles Walker, 102
Browne, Sir B. C., on Co-partnership and Unemployment, 585, 595
Bruce, Robert, on Marine Condensers, 648
Brunel's Report on the Broad-gauge System, 495; (Letter), 521
Buffing Machine, Crypto Electrical Company, 456
Building Operations and Engineering Works Bill, 157
Burgon, G. D., and G. F. Hudson on Copper Alloys and Mechanism of Annealing, 531
Burmah Oil Pumping Station, 361
Business Aspects of Early Engineering, H. W. Dickinson, 670
Butter Separator, Swiftsure Syndicate, 16

C

CABLE and Coral, Submarine Exhibits, India-rubber and Telegraph Company, 58
Caissons at Avonmouth Dock, Motherwell Bridge Company, 9, 70
Hauling Machinery, Carrick and Wardale, 9, 70
for Walney Bridge, 89
Caldwell, W., on Oil Shale at Pumpherston, 241
Callendar and Nicolson on Leakage and Condensation of Steam, 159
Campanile of St. Mark, 285
Campbell, Prof. E. D., on the Constitution of Carbon Steels, 397
Canada, Concrete and Steel Workshop, 367, 378

Chain, Renold Silent Driving, 466
Change-gear Apparatus, Hofbeck, 313
Chicago Drainage Canal and the Great Lake Levels, 109
Chimney, Largest in the World, 678
Clerk, Dugald, on Gaseous Explosions, 271, 273
Presidential Address to British Association, 253, 279, 354
Clock, Electrically Illuminated, W. H. Bailey, 466
Clyde Measured Mile, 74
Trust—*see* Harbours and Works

Coal, Coke, and Collieries:
Barnsley Main Colliery, Ropeway at, Bullivant, 194, 199
Belt Conveyors for Shipping Coal, Fraser and Chalmers, 573
Bunker and Road Screen at Barnsley Collieries, 194, 199
Coal and Coke-handling Plant at Bristol, Stagg, 113
Drill, Pneumatic Electric, 652
Dust and its Treatment with Calcium Chloride, H. Hall, 241
Elevator, Shovel and Coking Stokers, Proctor, 454, 455
Prices in London, 674
Shipping Machinery for Japan, Head, Wrightson and Co., 646, 650, 651
Transporting Plant of the Wigan Coal and Iron Company, 642
Coaling Staith and Hoist on the Tyne, 177
Station, Locomotive, Reinforced Concrete, 472
Coke Handling Machine, The Hamilton, 469
Oven Gas Engine Plant, 679 (*Two-page Supplement, December 25th*, 1908)

Coal, Coke and Collieries (*continued*):
Colliery Haulage Gears, 5 to 10 Horse-power, Electromotors, Limited, 402, 403, 430
Rescue Apparatus, Practical Use of, G. B. Walker, 241
Conveyors at Coventry, Bennis, 306
at Mining Exhibition, 97
Cutters at Mining Exhibition, Clyde, Pickquick, Siskol, &c., 135
Eight Hours Bill, 569
Mine Accidents in America, 387
Miners, Average Output of, 13
Railway Coal Bills and Wages, 196
Tubbing for Modern Collieries, 422
Warships, Coaling and Coal Economy, 353
Weighing Machines at Mining Exhibition, 97
Wemyss Coalfield, J. Gemmell, 241, 278
Yorkshire Steam Coal Trade, 45, 628
COKE—*see* Coal, Coke, &c.
Cold, International Congress on, 421
Commission, A Traveller's, 292
Compressor, Electrically-driven Air, Tilghman, 166, 431
Compressors, Air, at the Mining Exhibition, 136
Köster Air, W. H. Bailey, 466
Concrete Block Making Machine, 61
Bridges—*see* Bridges
Dam, Temporary, at Avonmouth, 34
Ferro-, Wharf at Swansea, 341 (*Supplement, October 2nd*, 1908)
Granary at Avonmouth, 34, 40
Handling by Belt Conveyors, 678
Monoliths at Avonmouth, 34
Piling at Yorkhill, 238
Reinforced, Railway Sleepers, M. Brukner, 411
Roadway for Motor Cars, U.S.A., 473
and Steel Workshop in Canada, 367, 378
Work at Monterey Waterworks, 486, 510, 514 (*Two-page Supplement, November 6th*, 1908)
Work at West Kootenay, B.C., 481, 490
Condensers, Marine, Bruce, 648
Professor Josse's Paper, 14
Considère System of Armoured Concrete, 450

Contracts:
24, 52, 76, 126, 152, 180, 206, 232, 256, 282, 310, 390, 418, 446, 476, 500, 526, 554, 578, 606, 632, 658

CONTRACTS for Electrical Work and Machinery, 449, 503
Conveying Plant, Grain, at Avonmouth, New Conveyor Company, 95
Conveyors, Belt, for Handling Concrete, 678
Shipping Coal, Fraser and Chalmers, 573
Coal-handling, at Coventry, Bennis, 306
"Marcus," Head, Wrightson, 97
at Mining Exhibition, 97

Docks:
Avonmouth, Royal Edward, at, 7, 12, 33, 40, 66, 70, 95 (*Two-page Supplement, July 3rd*, 1908)
Clyde Graving Dock Facilities, 562
Floating, for Callao, Swan, Hunter and Wigham Richardson, 220, 224
Swansea, Harbour Works and King's Dock, 341 (*Supplement, October 2nd*, 1908)
DOCKSHIP Vulcan, German Naval, 460, 462; (Letter), 521

Dockyard Notes:
Admiralty Casualty Return, 578
Agamemnon and Lord Nelson, Trials, 43
Argentine Government's Projected Vessels, 241
Dockyard Notes (*continued*):
Austrian Battleship Erzherzog, Franz Ferdinand, 533
Seagoing Squadron, its Constitution, 147
and Spanish Warships Compared, 533
Battleship, an Improved St. Vincent, 533
Bellerophon Type, Variety in Masts, 416
Trials, 533
Bellona, H.M.S., Probable Dimensions, 416
Boadicea and Invincible, Pitting from Corrosion, 578
Brazilian Battleship Minas Geraes, Launch and Details, 241
Clyde Shipbuilding at a Standstill, 242
Cossack and Teviot, Ocean Destroyers, Refit, 376
Cruiser Squadron, Fifth, Movements of, 376
New Second-class, 533
Drake, Good Hope, and Leviathan, H.M.S., Refit Question, 493
Dreadnought Comparisons, 241
Dutch Torpedo Boats Completed, 376
French Battleship Amiral Duperré as Target, 265
Jena as Target, 147
Monitor Tempête as Target, 265
Danton Class, Boilers of, 74
Turbine, Speed of, 147
Launching, 242
Coast Ship Furieux Fitted for Wireless Telegraphy, 43
Cruiser Montcalm Refitted, 524
Cruisers Ernest Renan and Jules Michelet, 43
Destroyer Spahi, Change of Design, 493
Destroyers, New Type, List of Names, 376, 493
Gun Accidents, Frequency of, 376
Mediterranean Fleet, Speed Trials and Target Practice, 416
Submarines with Rams, 493
Torpedoes and their Effect, 376
Warships, Old, 493
Furnace Defects in British Destroyers, 533
German Battleship and Cruiser Contracts, 147
Armament, 265, 416
Ersatz Sachsen, Launched and Named Westphalen, 74, 376
Battleships Reconstruction, 493
Cruisers F and G, Orders Placed, 578
and Turbines, 43
Type of Turbine, 493
Destroyers nearing Completion, 493
Dreadnoughts, Armament, 265, 416
Names, 376
Gunnery, Kaiser's Prizes, 376
Gladiator, Salvage of, 265, 376
Good Hope, Refit Postponement, 147
Guns and Torpedo Boats, 618
Indomitable's Speed Record, 147
Inflexible Class to be fitted with Portable Blast Screens, 242
Invincible Class, Speed, 43; Trials, 533
Italian and Japanese Vessels, Rumoured Armament, 265
Morosini's Guns, Rumours and Contradictions, 74
Japanese Battleship Mikasa, Rig and Armament, 43
Cruisers Fitted for Wireless Telegraphy, 43
Kaiserin Elizabeth Modernised, 147
Lord Nelson and Dreadnoughts, Comparison, 43
Oil Fuel in British and Foreign Ships, 533; (Letter), 566
Portsmouth Dockyard, New Hands, 524
Propeller Trials for the Dreadnoughts, 618
Royal Dockyards or Private Yards, 74
Rudder Changes, 618
Russian Cruiser Pleg Wrecked, 524
Gunboats Giliak and Koreitz at Dover, 524
Spanish Navy, Details of Projected Ships, 241
Swedish Cruiser Fylgia, 618
Swift, Destroyer, Trials, 241
Tail-shafts of Torpedo Boats Changed, 533
Téméraire and Bellerophon, Progress, 43, 533
Terrible and Powerful, H.M.S., Problem of Utility, 493
Triumph, Refitting, 376
Turbines, Curtis, for Japanese Ships, 533
United States Collier Vestal, 43
Cruiser California, Re-armament of the Class, 74
Destroyers Named, 618
Dry Dock at Puget Sound, 376

Controllers for Direct and Alternating-current Motors, for Pumps, Rotary Presses, and Various Machinery, Adams Manufacturing Company, 400
Controllers, Switches, "Autograd" and other Starters, "Cee Bee" Circuit Breakers, "Victor" Lamps, Electric and Ordnance Accessories Company, 399
Dynamos, Motors, and Motor Starter, Broadbent, 349
Electrical Design in Relation to Capital Cost, Miles Walker, 523
Furnace, Desulphurisation of Steel in, Geilenkirchen, 249
Lighting Powers, Local Authorities and, 94, 469, 492
Propulsion of Sea-going Ships, 85, 95, 488
Rolling Mill Equipment, "Ilguer" Principle, Dorman, Long, 320, 359
Visited by Iron and Steel Institute, 346, 371
Standards, 436, 470
Electricity in Germany and Britain, W. M. Mordey, 661
Electro-lifting Magnets, Kramos, Limited, 64
Electro-technical Commission, International, 436, 470
Electrolytic Production of Iron Sheets, S. Cowper-Coles, 372
Electromotors for Mining Purposes, 98
Electro-technical Commission, British, Miles Walker, 102
Equaliser, Fly-wheel, Lancashire Dynamo Company, 458
Explosion Counter, Graham, 348
Fuses, Circuit Breakers, Switches, Eckstein, Heap and Company, 432
Fuse-boxes, Controllers, Switches, Iron Cases for Switches, Eckstein, Heap and Co., 453
Gauge, Integrating Pressure, Schäffer and Budenberg, 348
Gears, Haulage—*see also* Coal and Collieries
Single and Double Helical Reduction, and 15 Horse-power Endless Haulage, Motor-driven, Power Plant Company, 427, 428
Generator, Lancashire Dynamo Company, 375
House-lighting Plant, General Electric Company, 403
Ignition Cell for Motor Cars, La Carbone, 189
Induction Motor Generator, General Electric Company, 328, 398 (*Supplement, October 16th*, 1908)
Insulating Machine, Dry, A. G. Brown, 454
Insulation Testing Machine, The "Megger," Evershed, 467
Kesnor's Lift Controller, Congdon and Muir, 431, 432—*also see* Lifts
Lamps, "Oriflamme" Arc, Oliver Company, 429
Lighting Sets, Heatly, Gresham Engineering Company, 428
Manchester Exhibition—*see* Exhibitions
Marseilles Congress, 367
Measuring Instruments, Testing Sets, Ammeters, Voltmeters, Dynamometers, Recorders, Campbell's Compensating Device, Century Pen and Century Test Sets; "E.B.L." Test Set; Wheatstone Bridges, Transmitter, Perforator Desk, &c.; Indicators, Richards, Simplex, Young's; Elliott Speedometer, Elliott Brothers, 454
Merz-Price Protective System for Electric Mains, Reyrolle, 426
Meters, Indicators, and Starters, Ferranti, 399
Switches, Aron Electricity Meter Co., 456
Motor Panel, Motor Starter, Rotor Resistance Field Rheostats, Bray, Markham, and Reiss, 468
Ventilated Enclosed, Variable Speed Commutator, Brown, Boveri, 430, 431
Motors for Lifts, Economisers, and Textile Machinery; House Lighting Sets; 3 K.W. Steam Dynamo; Electromotors, Limited, 402
Magnetic Brake, Dynamos, J. P. Hall, 399, 400
Motor Starters, Tramway Controllers, Marples, Leach and Co., 459
at the Sanoon Steel Works, 637, 639
Westinghouse Company, 375
Moving Coil Instruments with Foucault Current; Voltmeters (Ayrton-Mather and other types); Ohmers; Transformers; Ground Detectors; Switch (Earth Leakage); Telethermometer; Nalder Brothers, 459
Peebles-La Cour Motor Converter, Bruce, Peebles and Co., 328, 399 (*Supplement, October 16th*, 1908)
Power Supply and its Effect on the Industries of the North-East Coast, C. H. Merz, 346, 629; Mr. T. Westgarth's Addendum, 397
Electrical Matters (*continued*):
Railways—*see* Railways
Rheostats, Two Testing, Geipel, 630
Rotary Converter, 700 K.W., Westinghouse Co., 328, 398 (*Supplement, October 16th*, 1908)
Schäffer and Budenberg's Exhibits at Manchester Exhibition, 348, 455
Steam Dynamo, Vertical High-speed, Sisson, 402
Sub-station and Plant for Power and Lighting at Manchester Exhibition, 328, 398 (*Supplement, October 16th*, 1908)
Surface-contact System in London, 537
Switchboards, High and Low-tension, Ferranti, 398, 399
Switch Gear, Iron-clad High-tension, Reyrolle, 426, 427
Isolating, with Locking Device, Reyrolle, 457
High-tension, Frequency Meters, Motors, Union Electric Company, 456
Motor Starters, Grid Resistance, Auto-transformers, Shunt Regulators, Bray, Markham and Reiss, 401, 402
Tramways—*see* Tramways
Turbo-alternator, 1000-Kilowatt Curtis Steam, British Thomson-Houston, 426 (*Supplement, October 23rd*, 1908)
600-Kilowatt Zoelly, Musgrave, 376 (*Supplement, October 9th*, 1908)
Wiring System, Spring Conduit, Key Engineering Company, 457, 458
ELECTRO-MAGNETIC Shaft Coupling, Berlin-Anhaltsche Company, 654
Engineer, Profession of, 169, 470, 515; (Letters), 99, 149
Engineering, Early, Business Aspects of, H. W. Dickinson, 670
Education in the United States, 144, 300
Research, Value of, 300
Engineers, Training of, 673, 679

Engines and Motors:
Agricultural Oil Motor, Marshall, 612
Cooling Apparatus, Jacket Water, Little's, 455, 456
Engine, Alcohol, Tests of, 50
and Boiler Breakdowns, 272
Compound, Forced Lubrication, Browett, Lindley and Co., 375
Daimler "Silent Knight" Motor Car, 534
Diesel Oil, Sautter, 188
Dolphin Two-cycle Motor Car, Two-stroke Engine Company, 536, 561
Drop Valve with Recke-Ruston Valve Gear, Ruston, Proctor and Co., 37
23 Brake Horse-power, and Dynamo for Lighting Set, Lancashire Dynamo Company and C. Price, 403
Gardner Heavy Oil Launch, 75 Horse-power, 276
Gas Blowing, 2000 Horse-power American-Körting at Lackawanna, De La Vergne Company, 394, 406
Development in the United States, 394, 406
for Driving Natural Gas Compressors, 4000 Horse-power, Snow Pump Works, 394, 395, 406
90 Brake Horse-power, Dudbridge Ironworks, 360
Horizontal, 100 Horse-power, National Gas Engine Company, 522
Tandem, 1200 Horse-power, Maschinenfabrik Augsburg-Nürnberg, 679 (*Two-page Supplement, December 25th*, 1908)
Vertical, 800 Horse-power, Struthers and Wells, 394
Vertical, 150 Brake Horse-power, Westinghouse, 466
750 Horse-power, Westinghouse, and Mond Gas Plant, 151
for Generating Set, Reader, 349
Governors, Aspinall's Patent Governor Company, 38
Horizontal, 25 Brake Horse-power for Suction Gas, Bates, 466
Lentz Compound Drop Valve, Davey, Paxman and Co., 44
Lietzenmayer Crude Oil, 260
Mirrlees-Diesel, 150 Horse-power, Oil, 348
Oil and Dynamo, Allen's, 38
Portable, with Jet Condenser, Robey, 60
Reciprocating, in Marine Practice, 638
Rolling Mill, 25,000 Horse-power, U.S.A., 72
Rotary Petrol, in United States, 652
Sargent Tandem Gas, 394
Slow-speed, Cross-compound, 4000 Horse-power, Musgrave, 376
Stationary, The Lanz Locomobile, 598
Steam Winding, with Drop Valve Reversing and Overwinding Gear, Robey, 60
Suction Gas, 25 Brake Horse-power, Campbell, 61
Superheated Steam, with Doerfel Valve Gear, 260
Traction, Aveling and Porter, 17
for Gas Works Narrow Gauge Railway, Barrell's and Thompson's, 538, 542
Marshall, 17
Triple-expansion Forced Lubrication Steam, Browett, 98
"Valveless" Motor Car, Lucas, 536
Winding, Twin-tandem, Compound Drop Valve, Siegener Company, 624, 625
"Worcester" High-speed, Heenan and Froude, 99
Engines, Haulage, at Mining Exhibition, 97
High-speed, at Manchester, Howden, 404
for Lighting Sets—*see* Electrical Matters
Marine, The Mechanical Efficiency of, 505, 614

Engines and Motors (*continued*):
Oil and Gas at Royal Agricultural Show, 36, 60
and Steam, at Smithfield, 612
Power Measurement of, 144
Reciprocating Steam, Leakage and Condensation of Steam in, 159
Lentz Governor, 44, 598
Locomobile, "Lanz," with "Lentz" Poppet Valve Gear, Reimers, 98
ENGLISH Mechanical Goods in Siberia, 242
Enock, C. R., on Water Power in the Andes, 313
Enterprise, 170; (Letters), 201, 227, 244
Establishment Expenses and their Relation to Cost Accounts, Henry Spencer, 508, 532; (Letter), 589
Estimating and Rate-fixing for Fitting and Machine Shops, A. E. Ragot, 332, 357; (Letter), 474
Evaporators, Sea-water and Feed-heaters, Andrews and Cameron, 150

Exhibitions and Shows:

Workmen's Compensation Act, County-court Judge on, 544
LEAKAGE and Condensation of Steam in Reciprocating Steam Engines, 159
Leather, Belts, Pumps, Pulleys and Piping, Domange, 162
Legros, L. A., on Type-casting and Composing Machinery, 675

Letters from our own Correspondents:
America, Notes from, 24, 78, 104, 128, 154, 180, 232, 256, 310, 336, 364, 390, 418, 447, 476, 527, 554, 577, 606, 632, 658
Australian Notes, 102, 204, 498, 581
England, North of, 23, 51, 77, 103, 127, 153, 179, 205, 231, 255, 281, 309, 335, 363, 389, 417, 445, 475, 499, 525, 553, 579, 605, 631, 657, 681
Germany, Notes from, 24, 52, 78, 104, 128, 154, 180, 206, 232, 256, 282, 310, 336, 364, 390, 418, 447, 476, 501, 527, 555, 577, 607, 633, 659, 682

Letters from our own Correspondents (*continued*):

Iron, Coal, and General Trades of Birmingham, Wolverhampton and other Districts, 22, 50, 76, 102, 126, 152, 178, 204, 230, 254, 280, 308, 334, 362, 388, 416, 444, 474, 499, 524, 552, 579, 605, 631, 656, 680
Lancashire, Notes from, 22, 50, 76, 102, 127, 152, 178, 204, 230, 254, 280, 308, 334, 362, 388, 416, 444, 474, 499, 524, 552, 579, 605, 631, 656, 680
Scotland, Notes from, 23, 51, 77, 103, 128, 153, 179, 205, 231, 255, 282, 309, 335, 363, 389, 417, 446, 475, 500, 526, 553, 580, 606, 632, 658, 682
Sheffield District, 23, 51, 77, 103, 127, 153, 179, 205, 231, 255, 281, 308, 334, 363, 388, 416, 445, 475, 499, 525, 553, 579, 605, 631, 657, 681
Wales and Adjoining Counties, 24, 52, 78, 104, 128, 154, 180, 206, 232, 256, 282, 309, 335, 364, 390, 417, 445, 476, 500, 526, 554, 580, 606, 632, 658, 682

Letters to the Editor:

Air Resistance, M. E. J. Gheury, 19, 125; A. W. Johns, 73
Airships, Propellers for, E. V. Hammond, 163, 277, 473; H. Chatley, 373
Boiler Explosions, Michael Longridge, 521
British Enterprise, R., 201, 244; Kreutzkopf, 244; Inventor, 201; M.I.M., 227; N.Y.T., 244
Chicago and Mississippi Canal, Proposed but Imaginary, Engineer, 373
Concrete, Tin Pot, and Wood Blocking, Colonial Engineer, 244, 331; Member Institution of Civil Engineers, 277
Co-operation in Shipbuilding, Naupegus, 616
Correction, A (Midland Railway Staff at Leicester), Clement E. Stretton, 497
Corrosion, Allerton S. Cushman, 566; American Rolling Mill Company, 653
Cost Estimating and Rate Fixing, G. Bilham, 474
Couplers, Automatic, A. V. Roe, 244; A. B. C. Coupler, Limited, 305
Cylinder Condensation, Argus, 18; W. H. Booth, 48, 99, 226; R. Royds, 19, 48, 73, 149, 201; S. W., 19, 48, 73, 163, 226; F. B. Aspinall, 48, 125, 227; J. K. Rebbeck, 201; H. Bollinckx, 496
Dust in Coal, F. G. Fryer, 244
Electrical Accumulators, J. G. Rhodin, 124
Engineering Profession, Status of, G. A. Becks, 99; Engineering Status, 149
Establishment Expenses and their Relation to Cost Accounts, A. Williams Price, 589
Expenditure of Ratepayers' Money on Engineering Works, M. Inst. C.E., 521
Feed-water Heaters, A. R., 99, 163; W. O Horsnaill, 149
Ferro-Silicon, Transport of, P. P. Cantlin, 73
Field, The late Mr. Edward, Merryweather and Sons, 589
Fourth State of Matter, Carlyn, 331
Free Factory Site of Two Acres, W. H. Hosking, 653
French Compound, A New, R. Hope, 521
Destroyers, Recent, Augustin Normand, 277
Gunnery in the French Navy, X., 549
Hammers, Power Air, Fuel Cost of, T. Scott-King, 72; B. and S. Massey, 373, 413; W. Reavell, 440, 549; Mitchell and Dewar, 497
Lampeter, Aberayron and New Quay Light Railway, S. W. and A. L. Yockney, 497
Locomotive Nomenclature, Locomotive, 331
Locomotives, Four-cylinder Non-compound, G. W. Dauncey, 616, 669; Argus, 653
London and North-Western Diamond, X., 669
Machinery, Depreciation of, C. Pendlebury, 616, 669; A. Williams Price, 653
Marking of Machinery for Shipment, Merchant, 125; Experience, 149
Mechanical Flight, E. V. Hammond, 163, 277; H. Chatley, 373
Newcomen and Watt, the World's Peacemakers, O. D. Deacon, 359
Oil Fuel, British Petroleum Company, 566
Patents Acts, The New, J. Keith, 227
Peat, Sulphate of Ammonia from, N. Woltereck, 331
Utilisation of, T. Tomlinson, 305
Professional Etiquette, Geo. A. Becks, 99; Engineering Status, 149
Profit-sharing, C. Carpenter, 413
Propellers, Marine and Aërial, Motorite, 331; John Neill, 359
Propulsion, Gas, The Problem of, N. P. Durtnall, 497; Herbert F. Lloyd, 521
A Problem in, Student, 125; W. R. Sinclair, 163
Railway Lines, Reconstruction of, Duplex, 549; O. Coore-Mein, 566; Canadian Pacific Railway Company, 616
Ribbed Cylinders, Druitt Halpin, 549
Rolling Rings, A Puzzle, Bothered, 653; Arnold Maude, 669; Geo. M. Seabroke, 669; G. P. Fell, 669; Duplex, 669
Salvage Ships—*see* Vulcan
Sawdust, Utilisation of, X. Y. Z., 359
Spanish Navy, J. R. B., 277
Steel, High-speed Tool, Ernest R. Morrison, 616; Fusion-welded Metals, Limited, 653
Stone Blocks on Railways, Clement E. Stretton, 653
Superheater, History of the, Pro Pielock, Eberhardt, 73
Locomotives, London and North-Western, Argus, 653
Tank Engines on Curves, Loco., 48, 99, 227; J., 73, 125, 163, 227, 305; Shunter, 244; Arcanum, 149, 201, 244; Tank Engine, 201, 277
Tanks, Experimental, R. W. Munro, 73
Taximeter, An Early, G. H. S. Beamish, 440; J. H. Knight, 474; John Place, 497; R. B. P., 521
Tests, Impact, Value of, T. E. Stanton, 589
Train, First Passenger, Centenary, R. B. P., 331
Training of Founders, A.M. Inst. C.E., 19; F. A. L., 72, 226; F. G. Penny, 149, 277
Turbines and Propellers, J. P. Anderson, 496
Turkish Railway Development, Henry Cooke, 549
Vulkan, Dock Ship, Druitt Halpin, 521; Von Klitzing, 589

Letters to the Editor (*continued*):

Walschaerts Valve Gear, Valve Gear, 227; L. H. G. Dines, 331
Warships of the Air, A. V. Roe, 149
Water Board Charges, Metropolitan, Machinery Users' Association, 305
Hammer, Glass Model Experiments, C. E. Stromeyer, 413, 521; Aguas Corrientes, 473, 520; Q, 440, 589; X. N., 497; Prior Lien, 440; H. Munro, 475; R. J. Cracknell, 497; W. Akhurst, 549, 615; J. S. V. Bickford, 566, 615; N. Chandler, 497; A. H., 616; Stephen H. Terry, 566
William James and the History of Railways, W. B. Paley, 201; R. B. P., 201
Wright Aëroplane—*see* Airships
LIFT, Anderton Boat, Reconstruction, 82, 92 (*Two-page Supplement, July 24th*, 1908)
Operating and Controlling Apparatus, Motor-driven, Congdon and Muir, 431, 432
Lighthouse Apparatus and Models at the Franco-British Exhibition, 356
Quadruple Flashing Dioptric, Chance, 356
Lighthouses at Avonmouth, 33, 40
Lighting, Railway Carriages—*see* Railways
Lilly, W. E., on Strength of Solid Round-ended Columns, 289
Links, Curved, Milling Machine for, Herbert, 278
Liquid Fuel Burners, Cosmovici, Dragu, 667

MACHINE Shops, Estimating and Rate-fixing, A. E. Ragot, 332, 357; (Letter), 474
Heating and Ventilating, Davidson's System, 414

Machine Tools:

Automatic Machine, Four-spindle, Bar Chuck, H. W. Ward and Co., 429
Bending Machine, "Kennedy," 214
Drill, Rice High-speed Sensitive, Burton, Griffiths, 427
Drilling, Boring, and Tapping Machine, G. Wilkinson, 630
Machine, Connecting-rod, Tangyes, 224

Machine Tools (*continued*):
Drilling Machine, Radial, Vertical, W. Asquith, 403 (*Supplement, October 16th*, 1908)
Radial Pipe Flange, Howard Pneumatic Engineering Company, 387
"Selson" Radial, 302
Small Radial, W. D. McKendrick and Co., 470
Vertical, Cunliffe, 466
Machines, Three New, D. and J. Tullis, 523
Drills, Twist, Design of, A. T. Weston, 289
Drop Stamp, 3-Cwt., B. and S. Massey, 376
Estimating and Rate-fixing for Fitting and Machine Shops, Ragot, 332, 357
Gear Hobbing Machine, Wallwork, 404 (*Supplement, October 16th*, 1908)
Grinder, Ring and Surface, Churchill Company, 466
Grinding Machines, Luke and Spencer, 428
Hammer, Ajax Spring, Breitfeld Danek Company, 259
Hand-operated Sledge, Richourg, 161
3-Cwt. Pneumatic Motor-driven, B. and S. Massey, 375, 376
Steam, Early Nasmyth-Wilson, 291
Large Tools at Harland and Wolff's Southampton Works, 61
Lathe, Centre High-speed, Redman, 467
Railway Wheel, Hetherington, 550
7ft. Locomotive Wheel, Beyer, Peacock, 600; (Note), 677
Sliding, Surfacing and Screw-cutting, Chouanard, 265
Surfacing and Sliding, Shanks, 62
Quadruple-geared Shafting, Shanks, 62
Turret, 21in. Hartness, Dean, Smith and Grace, 442
with Two Lead Screws, Selig, 302
Machine Tools at the Franco-British Exhibition, 302
Machine for Registering the Work of, 642
at Manchester Exhibition, 403, 427 (*Supplement, October 16th*, 1908; *Supplement, October 23rd*, 1908)
Motor-driven, at Manchester, A. Herbert, 404 (*Supplement, October 16th*, 1908)
at Manchester, Pollock and Macnab, 466
Milling Machine for Curved Links, Herbert, 278
Horizontal, Herbert, 404 (*Supplement, October 16th*, 1908)
"Milwaukee" Universal, Burton, Griffiths, 427 (*Supplement, October 23rd*, 1908)
Planer, High-speed, Redman, 467
Planing Machine, Bevel Gear, "Sunderland," Churchill Company, 466
Large, Motor-driven, Bateman's Machine Tool Company, 431
Machines at Southampton, Buckton, 62
Plate-bending Rolls, Binnie, 62
Punching and Shearing Machines, Cameron, 62
Saw, 54in. Hot, at Saucon Steel Works, 637, 639
Saws, Panhard and Levassor, 313
Shaping Machine, Selig's, 302
Slotting Machine, 6in., Motor-driven, J. Stirk, 427 (*Supplement, October 23rd*, 1908)
Surfacing and Boring Machine, Kearns, 349
Turning and Boring Mill, Vertical, Cunliffe and Croom, 466
MACHINERY Trade, German, Combinations in the, 268
Madras Station—*see* South Indian Railway
Magnets, Lifting, for Steel Works, Cutler-Hammer, 228
Manganese Steel Rails, 544
Manhole Doors, Rolled Steel Forge Company, 84
Manure Distributor at Prague, 212
Wallace, 16, 37

P

PACKING, United States Metallic Packing Company, 466
Palmer Shipbuilding Yard: Its Advantages, 635
Paris Telephone Service, 359
Patent Law, America and the New, 247
Germany and the New, 15, 68
Patents Act, 1907, First Fruits, 640
Compulsory Working of, 437, 640
Licences to Work, 15, 68, 413
Prolongation of, 196

Patents, Selected American:
Air Pressure System for Turbines, H. Beusch, 634
Air Pump, C. A. Hague, 502
D. B. Morison, 208
Armour-Exploding Projectile, A. Wrotzke, 684
Axles, Cranked, Machine for Turning, H. W. Jacobs, 478
Billets, Method of Heating, C. J. F. Johnson, 392
Blast Furnace, J. H. Meissner, 528
Blower, J. H. Spencer, 208
Blow Pipe, A. G. Le Chatelier, 448
Boiler Tube Sheet, G. H. Rhentan, 284
Bolt, F. McInnerny, 608
Carburetting Apparatus for Explosive Engines, F. Dürr, 130
Cargo Vessel, W. Doxford, 392
Clamping Mechanism for Planing Machines and the Like, G. H. Benson, jun., 684
Concrete Mixer, G. P. White, 208
Condenser, Counter-Current, O. H. Mueller, 448
Surface, A. Harris, 556
Coupler, Automatic Oil, O. Damon and W. L. Shoup, 338
Coupling, Flexible, R. L. Lowry, 234
Train Pipe, A. S. Parsons, 338
Current Collecting Apparatus for Dynamo-Electric Machines, J. E. Noeggerath, 684
Cylinder and Piston Machines, Method of Increasing the Volumetric Efficiency of, A. Vogt, 478
Dam, J. F. Jackson, 582
Dumping Mechanism for Dipper Dredgers, W. Clifford and W. Ferris, 54
Dynamo Electric Machine, W. L. Waters, 208
Electrical Water Heater, Hill, 156
Engine, C. O. Robertson, 54
Combustion, O. G. Simmonds, 660
Indicator, G. Lanza, 582
Internal Combustion, H. A. Johnston, 258
Rotary, K. H. Korhonen, 182
Engines, Explosive, Process of Working, K. E. Schreber, 420
Excavator, Endless Chain Bucket, G. L. Hurst, 528
Feed Roll, Sectional, for Planing and other Machines, L. B. Whipple, 448
Filter, J. G. and O. B. Heitzman, 182
Friction Clutch, Morgan, 156
Furnace, Fine Fuel, D. Cudworth, 80
Smelting, Grönwalt, 156
Gas Engine, F. M. Ashley, 80
C. A. Clarke, 528
Process of Manufacturing, H. W. Benner, 478
Producer, R. L. Morgan, 556
G. Westinghouse, 130
Producers, Method of Operating, E. P. Coleman, 26
Gases, Iron Blast Furnace, Apparatus for Washing, B. H. Thwaite, 312
Process of Cleaning, A. Ernst, 502
Gasolene Engine with Mixing Cylinders on Crank Cases, F. A. Dobbins, 284
Gear Wheels, Process for the Manufacture of, F. A. Brunn, 392
Guns, Breech Appliance for, J. F. Meigs and H. G. Jakobson, 528
Chain Rammer for, J. F. Meigs and R. P. Stout, 54
with Recoiling Barrels, Foundation for, K. Völler, 556
Hammer, Pneumatic, T. C. Pronty, 420
Heater, A. I. D. Kyle, 312
Ingots Free from Blow-holes, Method of Producing, W. F. M. McCarty, 420
Lamps, Metal Filament, Manufacture of, W. C. Arsem, 634
Liquid Fuels, Process for Injection into Internal Combustion Engines, R. Diesel, 130
Locomotive, Electric, B. G. Lamme and N. W. Storer, 312
Measuring Instrument, A. S. Lane, 634
Metal Wheels, Art of Making, C. T. Schoen, 582
Metals, Process of Obtaining, from their Ores, K. Kaiser, 660
Milling Cutter, A. L. Valentine and C. G. Dahl, 54
Motor Cars, Friction Drive Mechanism for, C. C. Keyser, 258
Ordnance Bore Lighting, Telescope, S. Czapski, 208
Ore-reducing Furnace, J. T. Jones, 208
Packing for Piston Valves and Pistons, J. T. Wilson, 420
Piston Rod Lubricator, E. Blake, 366
Power Meter, Vawter, 156
Pressure-limiting Device, A. Wilzin, 608
Pressure Recorder, G. S. Medford, 366
Projectile Loading, G. W. Gentien, 478

Patents, Selected American (*continued*):
Projectiles, E. Gathmann, 660
Pump, Duplex, L. Willis, 556
Multi-stage, for Producing a Vacuum or Compressing Gases, A. Siegel, 392
Hydraulic, J. W. Nelson, 684
Steam-driven, G. Rennerfelt, 684
Vacuum, Zeitlin, 156
Valve, P. J. Doyle, 448
Vertical Shaft Centrifugal, A. W. Hunsaker, 182
Recording Manometer, F. N. Connet, 130
Reducing Valve for Compressed Fluid Motors, E. Schneider, 608
Resilient Gear Connection, N. W. Storer, 234
Rolling Mill, Biggert, 156
Mills, Feed Table for, J. Fawell, 258
Rotary Engine, Andreas, 106
Scroll-Bending Machine, V. W. Jewett, 312
Steam-Condensing Plant, D. B. Morison, 26
Storage Battery, T. A. Edison, 338
Stoking Apparatus, C. W. Crosby, 26
Tarring and Sanding the Surface of Streets, W. C. Southgate, 234
Tool Holder, G. E. Greenleaf, 582
Torpedoes, Standard, Shell or Casing for, C. Davis, 556
Turbine, S. Z. de Ferranti, 582
A. Jude, 284
Gaseous Fluid, C. Wedekind, 392
Marine, T. G. E. Lindmark, 478
Steam, J. Atkinson, 608
Water, W. G. Wright, 80
Valve, Coleman, 106
Automatic, A. J. Greenaway, 366
Vehicle Wheel, L. H. Barry, 284
Water Motor, Current, R. E. Coon, 208
Wheel, Roller Bearing Trolley, W. L. Cooksey, 338
Wood, Process for Distilling, T. B. Gautier, 312
Wrench, A. C. Smith, 660

Patent Specifications, British:
Accumulators, 156
Building, 365, 477
Condensers and Feed-water Heaters, 477

Associations, Institutions & Societies:

Association, British:
Programme for Engineering Section, 226
Association, British Foundrymen's:
Alloys, P. Longmuir, 373
Association of Engineers, Barrow and District:
Formation and Opening Meeting, 446
Association of Engineers, Manchester:
Engineering Features at Shepherd's Bush and Manchester, 413
Syllabus of Proceedings, 392
Visit to Harland and Wolff's Belfast Works, 19
Association, Geologists', London:
Geology of the Berwyn District of North Wales, J. Lomas, 50
Jubilee Celebration; Conversazione and Lecturettes, 562
Association of Engineers-in-Charge:
Smoke, J. Swinburne, 350
Visit to Tower Bridge Machinery, 604
Association, Greenock, of Engineers and Shipbuilders:
Steering Gears, E. H. Waters, 474
Association, Incorporated, of Municipal and County Engineers:
Gosport and some of its Recent Public Works, Frost, 178
Meeting at Gosport, Excursions and Visits, 178
Association of Mechanical Engineers, Birmingham:
Annual Meeting and Elections, 618
Estimation of Costs in General Engineering Work, F. T. Clapham, 589
Association of Teachers in Technical Institutions:
Meetings, 470
Technical Education at the Franco-British Exhibition, W. J. Lineham, 470
Association of Water Engineers:
Meeting, 478
Programme of Papers, 604
Rainfall, Measurement of, H. R. Mill, 478
Institute, Aëro Club:
Formation and Objects, 376
Institute, The Concrete:
Concrete, Composition and Uses of Plain and Reinforced, Marsh, 497
Designs for Reinforced Concrete Work, W. Dunn, 497, 669
Offices and Secretary, 497
Institute, Iron and Steel:
Bessemer Medal Award, 589
Secretary and Assistant Appointed, 592
Institute, Iron and Steel, West of Scotland:
Dinner, 607
Institute of Marine Engineers:
Denny Gold Medal Award, 152
Generation and Electrical Transmission of Power for Main Propulsion and Speed Regulation, Durtnall, 74
Lloyd's Register Scholarship, 147, 350

Associations, Institutions, & Societies (*continued*):

Repairs to Ships, Elliott, 152
Sarco Combustion Recorder, Demonstration, 618
Visit to Franco-British Exhibition, 74
Institute of Metals:
First General Meeting, at Birmingham, 310
Object and Particulars of Foundation, 152
Programme of Papers for Discussion, 600
Institute, Mining, of Scotland:
Meeting and Admission of Members, 163
Pumps, Experiment with Electrically-driven, Galloway, 163
Timbering Roadways, Mavor, 163
Institute, North of England, of Mining and Mechanical Engineers:
Annual General Meeting, 125
Meeting and Reports, 625
Pumps, Old Wooden, from Rainton Colliery, 625
Programme of Papers, 376
Institute, Staffordshire Iron and Steel:
Heat, New Views on, W. J. Foster's Presidential Address, 418
Sulphur and Iron, Mr. Stead's Experiments, 425
Institution of Civil Engineers:
Awards of Medals and Prizes, 1907-1908, 460
Rotherhithe Tunnel, E. H. Tabor, 627
Students' Meeting:
Design and Erection of a Plate Girder Bridge over the Lea at Broxbourne, L. W. Atcherley, 632
Glasgow Association of Students:
Metals and Alloys, The Structure of, G. H. Gulliver, 526
Manchester Association of Students:
Presidential Address, Crook, 552
Programme of Papers and Visits, 552
Refrigeration, Engineering Appliances, Guest, 552
Students' Class for Associate Membership, 310
Visit to Heaton Park Reservoir, 552
Newcastle-upon-Tyne Association of Students:
Inspection of Dynamometer Car, North-Eastern Railway, 310
Secretary Appointed, 152; Secretary Changed, 485
Visit to Ferro-concrete Works at Dunston, 20
to North-Eastern Railway Bridge over the Wear, 73; Carriage and Wagon Shops at York, 310
Yorkshire Association of Students:
Cement Company, Robson's, Visit, 180
Manufacture and Use of, Watson, 549
Grindleford to Rowsley Section of the Derwent Aqueduct, A. H. Jameson, 644
Headingley Filter Beds, Visit to, 74
Hull Dock, Visit, 180
Institution of Electrical Engineers:
Awards, Dinner, 469
Glasgow Local Section:
Annual Dinner, 549
Growth of Electrical Activity, W. W. Lackie, 526
Opening Meeting, 537
Glasgow Students' Section:
Mains Testing, Some Phases of, G. L. Black, 566
Leeds Local Section:
Natural and Induced Draught Systems, W. N. Y. King, 526
Manchester Local Section:
Annual Report, 167
Institution of Engineers, Junior:
Annual Meeting, Awards, Report, 469
Hydraulic Machine Tools, Notes on, N. S. Trustram, 497
Visit to Limmer Asphalt Paving Works, 526
Selfridge Store Buildings, 627
Siebe, Gorman's Submarine Engineering Works, 589
Institution of Engineers and Shipbuilders in Scotland:
Address Changed, 296
Opening of New Buildings, 580
Standardisation and its Relation to the Trade of the Country, Sir J. Wolfe Barry, 580
Institution, Incorporated, of Automobile Engineers:
Motor Car, Some Problems of the, Dugald Clerk's Presidential Address, 310
Programme of Session, 1908-9, 215, 310
Institution of Mechanical Engineers:
Bristol Meeting, Papers and Programme, 45
Medal Award, 495
Graduates' Association:
Commercial Precision Grinding, R. Bishop, 654
Engine Testing and Modern Steam Practice, A. Stadelbauer, 80
High-lift Centrifugal Pumps, W. Millington, 80
Meeting in Manchester, 80
Railway Fog and Automatic Signalling, L. Hillier, 537
Steam Engine and Boiler Trials, W. Inchley, 448
Institution of Mining Engineers:
Annual Meeting, List of Papers, 192
Headquarters transferred to London, 633

Associations, Institutions, & Societies (*continued*):

Institution of Mining and Metallurgy:
Meeting, Announcement of, 390
Institution of Municipal Engineers:
Meeting of Executive Committee, Applications for Membership, 360
Meeting, Officers, Title, 448
New Members and Students, 488
Institution of Naval Architects:
Martell Scholarship Award, 189
Institution, North-East Coast, of Engineers and Shipbuilders:
Annual Meeting, Dinner, 471
Cranes, Electrical Equipment of, J. Brentnall Duckitt, 536, 658
Shipyard, System of Control for, W. J. Wilson, 658
Institution, Permanent Way:
Literature and Membership, 580
Institution, Royal:
Juvenile Lectures, The Wheel of Life, Professor W. Stirling, 552, 653
Meetings, and Elections, 52, 496
Programme for Winter, 633
Society, Aëronautical, of Great Britain:
Wright and Farman Aëroplanes, Lanchester, 627
Society of Arts, Royal:
Annual General Meeting, 20
Election of Chairman, 73
Society of Arts, Royal Scottish:
Opening of Session; Awards of Medals and Prizes, 537
Slide Valve Gears, Apparatus for Study and Design, A. R. Horne, 581
Society of Engineers:
Amalgamation with Civil and Mechanical Engineers' Society, 658
Elections; Premium Awards, 669
Visit to Dover Harbour, 336
Society, Faraday:
Meeting and Elections, 38
Society, Manchester Geological and Mining:
China Clay, G. Hickling, 19
Meeting, 19
Temperatures at which Coal and Wood will Ignite, H. Hall, 19
Society, Physical:
Exhibition, 607
Society, Royal Agricultural:
Meeting, 592
Society, Royal Meteorological:
Balloon Ascents in the British Isles, Registering, C. J. P. Cave, 658
Balloon Observations at Ditcham Park, C. J. P. Cave, 658
Kites, Scientific, Some Forms of, E. S. Bruce, 658
Society, Siemens Stafford Engineering:
Conversazione and Exhibits 600

Argentine Metre-gauge Railway Projected, 269
Assam-Bengal Light Railway Extension, 489
Australian Trans-Continental Railway Survey, 345
Austrian State Railway Authorities and Electrification of Alpine Railways, 351
Automatic Stop, Trial on Lancashire and Yorkshire Railway, 593
Baden, Grand Duchy, Electric Traction Scheme, 117
State Railway Electrification, 461
Baghdad Railway, Construction Resumed, 91
Railway Extension, German Survey, 39
Bahia's Railway System, 219
Barcelona's Excellent Tram Service, 219
Bavarian Railways, Scheme for Electrification, 245
Berlin State Railway Electrification, 405
Bernese Alps, Conversion of Line to Electric Traction, 167, 245
Bishopsgate-street Widening and Tramway, 117
Board of Trade Railway Returns, 54
Bolivian Railway Extension, How to get to La Paz, 218, 433, 461
Bournemouth Tram Car Accident, Board of Trade Report, 323
Brake, Emergency, for Tramcars, Pringle's, 117
Test Records, Maximum, 19
Brakes, Great Western and the Board of Trade, 671
Brazil Railways, Opened and under Construction, 528
British and American Railways, Comparison of Statistics, 65
Buenos Aires and Tube Railways, 593
Buffalo and Roches er Railway Company, Train Running by Schedule, 323
Cable Railways Replaced by Electric Lines in Chicago, 540
Calais Electric Tramways, 117
Californian Railways, Steam and Electric in Existence and Projected, 141
Canada, Cars Shortage, 489
Various Railway Extensions, 645
Railway Commission of, 223
Canadian Northern Railway, Toronto to Sudbury Line, 167
Pacific Railway, Baggage Statistics, 251; Report, 385
Railways Sold, 297
Trans-Continental Railway, Predicted Cost, 65, 226
Cars for Transport of Automobiles by Railway, 489
Central Essex Light Railway, Progress, 193
London and Great Northern, Piccadilly and Brompton Railways, Connection by Holborn Subway, 645
Railway, Proposed Extension, 593
Ceylon Railway Extension, 141
Chamonix to Mer de Glace Railway Opened, 193
Chicago Elevated Railway Extension, 297
Noise Elimination Experiments, 323, 405
Street Railways, Rehabilitation, 351

Railways and Tramways (*continued*):
Chinese Railway Enterprise, 167, 513
Officials and the British Section, 39
City and South London Railway Fire, Board of Trade Report, 323
Coal for Austro-Hungarian Railways, 567
Carrying Railways of the United States, Operating Results, 438
Companies and Scotch Railways, Recrimination Proposals, 269
Yorkshire, and Railway Contracts, 653
Concrete, Reinforced, for Tramway Poles, 513
Telegraph Poles for Pennsylvania Railroad, 297
Corean Railway Extension and Improvement, 377, 433
Costa Rica Railway Company's Improvement, 219
Derailment at Newcastle, 405
Dutch Railway from Stavoren to German Frontier, 11
East India Railway, Lost Rolling Stock, 433
Electric Headlights for Locomotives, 297
Locomotive for Brooklyn Rapid Transit Company, 645
for Coal and Goods Haulage in Indiana, 489
for Train Shunting in Berlin, 489
Railways, Great Increase in the United States, 219
Narrow-gauge, in the Bavarian Alps, 167
Projected in Switzerland, 245
on the Zugspitze, 167
Tramway Projected between Pamplona and Sangüesa, 513
Electrification of Prussian Railways, Extensive Project, 489
of Railways in the Austrian Tyrol, 489
of State Railway between Basel and Zell, 297
Fire Extinguishers for Canadian Railway Coaches, 269
Precautions for London Electric Railways, 619
Florence Railway Station Enlargement, 489
Formosa, Railway Extension by Japanese, 433
Freight Cars, Idle, in America, Statistics, 297
French Government Purchase Western Railway, 65
and Swiss Electric Extensions, 65
Gasoline Motor Car for Interurban Electric Railway Line, 377
Genoa to Busalla Electric Railway, 65
Street Railway, Long Tunnel, 193
German Railway Statistics, 1906-7, 242
Truck Union, 593
South-West African Railway Opened, 11
Africa, Railway Concession from Portuguese Government, 461
Grand Trunk Pacific Line Extension, 65
Great Eastern Railway Locomotive Department Annual Dinner, 563
Light Railway Projected, 269
Railway, March Station Improvements, 219
Western Improvements in South Wales, 567
Guatemala and San Salvador Railway, Extension, 141, 245, 323
Hankow-Chengtu Railway Projected, 219
Haslingden Tramways and Electrical Supply Difficulties, 167
Hejaz Railway, Progress made from Damascus towards Medina, 167
Opened at Medina, 377; Effect, 405
Highways Committee, L.C.C., Tramways Report, 671
Horwich Railway Mechanics' Institute Engineering Club, 669
Hudson Bay Railway Survey, 193
Indian Railway Returns, 141, 245
Interlaken-Grindelwald Rack and Pinion Railway to be Electrified, 351
Inter-Oceanic Railway, Conversion to Standard Gauge, 433
Italian State Railway Electrification, 513
Japanese Railway Extension, 91, 619
Railways Increased Traffic; Demand for Rolling Stock, 141
Kansas City, Mexico, and Orient Railway; Progress and Advantages, 39
Kara Sea to Siberian River Obi, Railway Projected, 45
Keelung to Takow Railway Progress, 11
Knott End Railway Extension, Progress, 167
Lagos Railway, Progress, 39
Lancashire and Yorkshire, Diminished Service, 405
Humber Docks, Projected, 461
Leghorn, Improved Railway Communication, 433
Level Crossings in Belgium, Proposed Abolition, 461
on Swiss Railway: Automatic Closing of Gates, 461
Libyan Desert Railway, 351
Light Railway Commissioners' Orders Confirmed, 65, 117, 167, 193, 269, 297, 461, 541, 671
Locomotive Boiler Explosion in France, 193
Locomotives, Electric or Steam, Comparison, 541
Headlights, Electric, 297
British, Replace German, for Chili, 91
Output by Philadelphia Firm, 323
Loetschberg Tunnel, Rapid Progress, 11
London Bridge and Victoria Railway Electrification, 193
London and North-Western and Caledonian Railways Corridor Trains, 65
Lighting Experiments, 323
Midland, and Great Northern Cease Running Competitive Trains to Inverness, 377
Non-Stop Run from Euston to Rhyl, 91
London and South-Western Accident, Board of Trade Report, 567

Railways and Tramways (*continued*):
London and Mechanical Engineers' Department Moved from London to Eastleigh, 567
Lorenço-Marques Railway Extension, 351
Manganese Steel for Tramway Tracks, 91
Marseilles Traffic: Paris-Lyons-Mediterranean New Railway, 297
Massachusetts, Increased Railway Mileage, 11
Melbourne Suburban Railways, Proposed Electrification, 91, 323
Mersey Railway Company, Changes in Management, 65
Metal Sleepers Tested near Lucknow, 461
Metropolitan Railway, Improved Train Service, 351
Midi Railway Company's New Lines, 297
Midland Anti-vibration Corridor Train, 11
Railway's New Signal Light, 297
Railway Shop Extensions at Derby, 619
Staff Reductions, 461; (Correction, Letter, Clement Stretton, 497)
Monorail Projected for New York, 619
Montreal Terminus, Scheme by Grand Trunk Railway, 567
Moscow Circular Railway Completed, 117
Electric Tramway Extension, 65
Odessa Railway Communication, 461
Mountain Railway, Electric, 10,000ft., 11
Natal Government Railway Mileage, 65
Railway Extension Projected, 9
New Haven Railway, Success of Electrification, 541
South Wales, Accident Statistics, 405
York, New Haven and Hartford Railway Overhead Contact Difficulties, 593; Proposed Further Electrification, 645
New Haven and Hartford Railway, Providence Tunnel Pierced, 219
Nice Railway Communication, Progress, 39
Nine Elms Goods Yard Improvements, 433
North British Railway, Reduction of Labourers' Working Hours, 433
Station at Newtongrange, 167
and Caledonian Railways, Proposals for Increased Economy, 433
Eastern Railway, Maximus Brake Test Records, 19
London Railway Report, 167
Staffordshire Railway's Six-coupled Radial Tank Engines, 567
Nottingham to Hull, Proposed Railway, 461
Odessa Exchanges Horse Wagons for Electric Tramways, 433, 619
Oregon Electric Railway and Telegraph Wire Troubles, 351
Outram-way Closed in Derbyshire, 219
Overhead Electric Railway, Narrow Gauge, in Switzerland, 461
Wire Rope Tramway for San Francisco Lime Company, 593
Paraguay, French Company Apply for Concession for Railway, 11
Pay-as-you-enter Cars for Chicago, 541
Minneapolis, 323
Pennsylvania Railroad, Long Service Employés, 117
near New York, Mode of Traction Uncertain, 167
Projected Electric Traction, 541
Projected Track of Oak Blocks in Concrete, 671
Record Punctuality, 219
Record Speed Run to Test Bridges, 250
Using Concrete Telegraph Poles, 297
Peruvian Railways Conducted on American Lines, 193
Petrol-Electric Locomotives in America, 405
Philadelphia Locomotive Output, 11
Subway and Elevated Railway, 193
Piræus, Athens, and Larissa Railway, 269
Portland and Salem Electric Railway, 117
Portuguese Railways in the Mhambane and Mozambique Districts, 167
Prussian Railways, Accumulator Cars, 344, 541
Rail Bonds, Car for Testing, 619
Rails on Madras Railway too Light for Traffic, 513
Thrust of Wheels on, 11
Railway Capital and Labour, Discussion, 91
Club, Superheating Apparatus for Locomotives, J. F. Gairns, 526
Couplers, Automatic, Italian College Competition, 189, 193
Reserve Men in America, 671
Servants' Returns, 671
Traffic Returns, 593
Railways, Irish and London Tube, Comparison of Cost, 334
Rating of the Great Northern Railway, 126
Rhodesian and Cape to Cairo Railway Extension, 39, 193, 567, 645
Ricken Tunnel Difficulties, 541
Rolling Stock Lost on Russian Railways, 86
Rosenberg Train-lighting Equipment, Trial on Austro-Hungarian Railways, 141
Roumania Railway and Port Extensions, 513
Russia, South-West, Need of More Railways, 219
Russian Railway Electrification Discussed, 297
Mileage, 269
Orders, Great Decline, 39
Railways, Coal for, 323
Mileage and Receipts, 167
St. Petersburg to Kieff Railway, Progress, 193
Nicolas Railway Station, Rebuilding Projected, 193
Scotch Expresses, Private Conference, 567
Railway Charges and Fares, Changes, 73
Railways and Coal Companies, Recrimination Proposals, 269
Mineral Traffic Economy, 593
Servian Rolling Stock Made in Germany, 167
Shanghai and Ningpo Railway, Successful Construction by Chinese, 141
Sheffield and Warrington Electric Railway, Projected, 141
Siberian Railway, Automatic Registration of Trains and Cars, 351
Connections, Surveys, 11

Railways and Tramways (*continued*):
Siberian Railway, Director Appointed, 9
Extensions in Central Asia, 193
Sicilian Railway, Paterno-Nicosia, 117
Railways Taken Over by Italian Government, 11
Signalling, Automatic Block, Reliability, 645
Lamp, for Boston Street Railway, 513
on Midland Railway, New Type of Light, 297
Simplon Tunnel, Satisfactory Verdict on Electrification of Railway, 265
Singapore-Penang Peninsula Railway Completed, 645
Sleepers, Comparative Cost of Iron and Wood, 91
Tests with Ferro-concrete, 513
Snow on Switches, &c., Melted by Oil, 513
South-Eastern Railway, Explanation of Declining Profits, 141
Manchurian Railway Connected with Shanghai Mail Steamers, 174
Nigerian Railway, Extension Opened, 297
Yorkshire Colliery District, New Railway for, 405
Spanish Railways, Uniform Gauge Proposed, 433
Secondary Railway Projected, 193
Spark Arresters, Gradual Development, 645
Speed Indicators for Tramcars, 141
Station Indicator for Travellers, Automatic, 513
Steam Tramways in Italy, 645
Steel Rails for Mexican Railways, Home Manufactured, 245
Ties for Street Railway Tracks, 117
Subway at South Kensington Opened Free, 671
Swedish Railways, Electrification, 269
Electrification, Large Demand for Electrolytic Copper, 461
State Railways, Electrification Experiments, 39
Peat Production for, 489
Swiss Electric Railway from Gletsch to Disentes, 513, 619
Single-phase Railway, 65
Switches, Facing Point, Changed on Pennsylvania Railroad, 11
Tehuantepec Railway Extension, 219
Ties on Signal System Track Circuits, Treatment by Zinc Chloride or Creosoted, 269
Trackless Electric Tramways Projected in Falmouth, 461
Projected in Ireland, 245
Tramways Projected for Manchester, 351
Trolley System, Trial in Manchester, 269
Traffic Exceeds Facilities in New York, 117
Train Reporting, Effectual System, 513
Tramroad, Old, or Granite Railway, 405
Outram, Closed in Derbyshire, 219
Tramway between Lucca and Valdinievolo, 489
First-class Cars Projected for Liverpool, 11
Working begun, 377
Tramways and Light Railways Association, First Congress, 91
Trans-Pyrenian Line, Puymorens Tunnel Commenced, 377
Transvaal, Proposed Railway to Lourenço Marques Line, 38
Turkish Railway Difficulties, 167
Unemployed in the Transvaal, Work Found on Lydenburg Railway, also in Mines, 377
Uruguay Railway Extension, 645
Venice Station and Bridge Improvements, 405
Vienna Underground Railway for Postal Purposes, 141
War Railway Council, Strategic Arrangements, 377
Wimbledon and Sutton Railway Connection Proposed, 433
York Electric Tramways Scheme, 117
Station Improvement, 377

RAINFALL and Thames Flow, 65
Refrigeration Car in America, New Pattern, 219
on Small Scale, 541
River Banks, Trees and their Effect, 405
Road Congress, International, and the Dust Problem, 192, 405
Making in Lancashire, New System, 567
Tarring Objected to in France, 377
Rock Drill Hose Strengthened by Marline, 297
Rosyth Naval Base, Caisson Sinking Delayed, 39
Operations Begun, 323, 433
Royal Agricultural Society's Meeting at Gloucester, 440
Rubber Bearing Territory, Important Discovery in South America, 117
Ceara, Proposed Cultivation in Zanzibar, 208
Exhibition at Olympia, 91
New Material to Rival, 323
Rugby Engineering Society Conversazione, 532
Russian Ironworks Closed after 150 Years' Work, 91
Rivers and High Roads, Improvement Scheme, 102
Rust Prevention, Paper by Mr. Thornton-Murray, 91
Rusting Experiments, 671
Ruston, Proctor's Annual Dinner, 627

S

SCIENCE Congress, International, at Brussels, 39
Scottish Engineers and Shipbuilders, Home for, 446
Scrap Metal Exports, 593
Seismograph Deficiencies, New Instrument, 141
Silenium for Signalling Purposes, 193
Sewage Disposal, Residential, by New System, 351
Royal Commission Report, 268

Ships and Shipping Matters:
Admiralty Casualty Returns for 1901-1908, 269, 377
American Lake Shipyard Output, 219
Berlin Steamships and Electric Propulsion, 269
Board of Trade Return of Unsafe Ships, 541
Brazilian Torpedo Destroyer Para, Launch at Yarrow Scotch Works, 65
British Naval Work for Private Yards, 377
Canadian Shipping to Replace United States Vessels for British Columbia Coastal Trade, 11
Clyde Shipyards and the Depression, 65, 245
Eight Months' Shipbuilding, 250
Ten Months' Shipbuilding, 519
Eleven Months' Shipbuilding, 604
Commonwealth, H.M. Battleship Fitted with High-power Wireless Telegraphic Service, 245
Cruisers, British, H.M. Defence and others, 567
Derelict Destroyer, Special Vessel Built, 619
Dundee as a Submarine Depôt, 489
Etruria, Single Propeller and Engine, 461
Explosives on Board Ship, Unsafe Storage, 671
Ferry Boats on the Rhine, Electric, 405, 513
Steamer for Glasgow, Ferguson, 147
French Armoured Cruiser Quinet, 513
Destroyers, Reciprocating Engines or Turbines, 252
Naval Estimates, 671
German Battleships, Rates of Speed, 245
Dockship Vulcan, 507
Liner's Speed Record from New York, 219
Navy League's Demands, 351
Gladiator, Salvage of, 193
Greek Torpedo-boat Destroyers Built at Yarrow's, 117
Gunboats for the Danube, Yarrow, 76
Hibernia, H.M. Battleship, and Torpedo Experiments, 541
Highflyer, H.M. Cruiser, New Equipment for, 323
Indomitable's Achievements and Clydeside, 219
and Dreadnought, Docking at Chatham, 297
Japanese Destroyers and Battleships, 219, 351
Kennet, River Class Destroyer, Repairs and Wireless Telegraphy Installation, 331
Launch, Steam Pilot, the Chin, 418
Launches, Petrol and Electric, in Italy, 405
Lloyd's Shipping Returns, 65, 397
Lochiel, R.M. Steamer, Fitted with Schlick's Gyroscope, 478
Lusitania's Speed, 193
Magnetic Survey by Special Ships, 269
Masts, Military, for United States Warships, 117
Mercantile Tonnage, Reduction in Output, 141
Mercedes, Steam Collier for Naval Purposes, 567
Motor-propelled Pinnaces, MacLaren Bros., 502
Munich, Great Eastern Railway Turbine Steamer, Dimensions and Trial, 485
Naval Fighting Tonnage, Comparison between Great Britain and other Nations, 567
Machinery, New Regulations, 513
Strength, International Comparison, 141
Navy and Wireless Telegraphy, 269
New Zealand, H.M. Battleship, Refit, 555
Norwegian Motor Schooner Saevareid, 297
Oil Tank Steamers, Clyde-built, 512
Otaki, Twin-screw Turbine Steamer, Denny, 192
Para, Brazilian Destroyer, Trials of, 297
P. and O. Liners at Greenock, New, 418
Port Defence, Commercial, Admiralty Arrangements, 489
Vessels for Rangoon, 658
Rattler, H.M.S., Propulsion by Gas Engine, Beardmore, 250
Reciprocating and Turbo Propulsion, Combined, 192
Red Star Liner Lapland, Launch, 76
Russian Battleship Building Difficulties, 39
Designs, Conference at St. Petersburg, 141, 219
Mercantile Marine, 634
Shipbuilding Decrease, 377
Safety of Life at Sea, American Commission, 671
Screw Propulsion in Shallow Rivers, 418
Searchlights and Admiralty Orders, 645
Shipbuilding Instruction, Leith Technical College, 384
Shipping Casualty Returns, 193
Ships' Lights, Admiralty Order, 578
Spanish Naval Contract, 658
Steering Gear, Electric, for the Rurik, 474
Suez Canal Tonnage, 219
Téméraire, H.M. Battleship, Progress of Equipment, 323
Searchlight, 541
Torpedo Boat Destroyers Equipped for Oil Burning, 39
Petrol-propelled, Yarrow, 552
Turbine Steamers for Irish Service, Denny, 163
Torpedo Boat No. 31, Thornycroft's Dimensions and Launch, 405
Turbines or Internal Combustion Engines for British Cruisers, 653
United States Battleship South Carolina, 117
Navigation Bureau, Shipbuilding Report, 39
Tonnage, Record-breaking Output, 117
Warship Design, American Imitation of British System, 377

SHREWSBURY, Weir and Bridge Projected across Severn, 141
Silica, Process for Melting and Moulding by Electric Furnace, 489
Silver Cyanidation and Manganese, 504
Slide Rule and Logarithms, History of, 65
Small Arms Factory Proposed in New South Wales, 245
in Spain, 513
Smoke Prevention Exhibition at Sheffield, 512
Sodium and its Properties, 269
Sound Direction, Apparatus for Detecting, 489
Sparking Plugs for Automobiles, Standardisation, 567
Speed Indicators for Tramway and Motor Cars, 117
Staffordshire Society, Increased Membership Desired, 242
Steam Traps, Geipel's "Rapidity," Demonstration, 628
Steel—*see* Iron and Steel

Sulphuric Acid in Russia, Annual Production, 141
Superheat Regulated by Tubes, 619
Superheating Regulation with Fluctuating Steam Consumption, 351

T

TABLOID, Burroughs, Wellcome, and Co., 19
Tantalite Discovery in India, 593
Tantalum Hardening by Oxygen, 297
and Tantalite Output, 193
Taxation of Gas and Electricity, German and Italian, 513
Telegraphic Extension in French West Africa, 193
Instruments, Historical Collection of Midland Railway, 117
Message Tubes in Bremen, 245
Telegraph, Submarine, and Steam Trawlers, 91
Telegraphs and Telephones in Natal, 245
Telegraphy, Underground, to Penzance, 541, 593
Telephone Station in Italy, Highest in the World, 269
and Telegraph Wires placed Underground in Melbourne, 22
Telephones in Austria, Great Extensions, 615
Test for Cylinder Oils, 328
Testing, Commercial, by University Laboratory, Opposition, 65
Textile Mills in United States, 323
Thermo-Electric Couple, Inexpensive Method, 323
Timber Destruction by Beetles Avenged by Fungus, 65
Testing at Yale University, 405
Valuable, on Hainan Island, China, 405
Tin-plate and French Import Duties, 65
Tin Output in United States and Alaska, 297
Torpedo, New Type, Tested in United States, 269
Torpedoes, Dirigible, 593
Fulton and—*see* Fulton
Tramways, London United and London County Council, 604
